

**HO TECHNICAL
UNIVERSITY**

26TH CONGREGATION

**THUR. 27TH &
FRI. 28TH NOVEMBER
2025**

**G.M. AFETI
AUDITORIUM**

BRIEF HISTORY

— Ho Technical University —

Ho Technical University started as a Technical Institute in 1968 with the primary objective of providing pre-technical education. By 1972, the Institute upgraded its courses, resulting in the expansion of the pre-technical programmes into courses in engineering and vocational fields such as Basic Engineering, Agricultural and Mechanical Engineering, Building Technology, Fashion, Hospitality Management and Business Education.

In 1986, the Institute became a Polytechnic. It however continued to operate as second cycle institution, until 1993, when the Polytechnic was upgraded to a fully-fledged tertiary institution by the enactment of PNDC Law 321 and charged with the responsibility of training students in the technical and vocational skills to the Higher National Diploma [HND] level.

Subsequently, in 2007, Polytechnics were given the mandate by the Polytechnics Act 745, to award their own degrees to the highest level.

Ho Technical University has the mandate to award degrees, diplomas, certificates and other qualifications to the highest level in Engineering, Science and Technology based disciplines, Technical and Vocational Education and Training, Applied Arts and related disciplines.

OUR VISION

To become a hub of practical education and innovation advancing sustainable global development.

OUR MISSION STATEMENT

To develop highly competent human capital through career-focused education, skills training, research and innovation in partnership with stakeholders.

ETHICS POLICY STATEMENT

Ho Technical University is a secular and non-partisan public institution. Admissions and academic awards are based on merit without regard to ethnicity, race or nationality, religious affiliation or beliefs, physical disabilities or gender. Academic and social interactions within the University are governed by the principles of fair play, justice, honesty, moral rectitude, and respect for authority, human rights and the environment.

OUR CORE VALUES

Integrity:
Honesty, loyalty and accountability

Social Inclusiveness:
Gender equity, people centeredness and fair opportunity for all

Environmental Sustainability:
Environmental consciousness and community development.

Quality:
Excellence through pursuing highest standards

Innovativeness:
Problem solving through creativity, inventiveness and entrepreneurship

STRATEGIC MANDATE

The Technical Universities Act 2016 (Act 922) defines the mandate to principally provide career-oriented vocational and technical higher education, undertake vocational and technical research and propagate applicable knowledge. The University has additional mandate to build and nurture relationships with professional bodies and industry. Its strategic mandate is couched in the Strategic Plan of the University.

FOREWORD

It is with immense pride and joy that we gather for the 26th Congregation of Ho Technical University to celebrate the accomplishments of our graduates. In accordance with the provisions set forth in Statute 51 of the Statutes of Ho Technical University, we honour this remarkable cohort of graduates who have exemplified excellence through rigorous training, practical experience, and mentorship.

As Vice-Chancellor of this reputable University, it fills me with pride to witness our graduates not only achieving academic excellence but also excelling in practical competencies pivotal for success in their respective fields. It is important to highlight that in the lead-up to this 26th Congregation, Ho Technical University made substantial advancements to enhance the educational landscape. In fact, we have expanded our academic programmes to address the evolving needs of the industry and society at large. Our commitment to sustainability is evident in our ongoing Green Campus initiatives, which aim to strengthen collaboration in renewable energy and sustainable technologies. Additionally, we established two new studios for the Department of Architectural and Real Estate Management, retooled laboratories, and secured critical equipment and resources to foster exceptional teaching and learning experiences in the University. We also continue to place great emphasis on the continuous professional development of our faculty and staff. The Continuing Professional Development (CPD) programme remains a cornerstone of our commitment to enhancing the expertise of our Faculty and Staff through study leave provisions and sponsorship opportunities both locally and internationally.

I am also happy to note that, in the recent Times Higher Education SDG Impact Rankings, Ho Technical University has once again earned its place among the top five universities in Ghana in terms of Quality Education (SDG 4), and the Best Technical University in Ghana as acknowledged in the esteemed Times Higher Education 2025 World University Rankings. Furthermore, in EduRank's 2025 Rankings of best universities in the world, HTU has been ranked as the Best Technical University in Ghana. The 2024 Green Metric World University Rankings also affirmed our commitment to sustainability, ranking HTU as the No. 1 University in Ghana and the 7th Best University in West Africa. Additionally, our students displayed remarkable competitiveness and ingenuity in various

national competitions, including winning the prestigious USA Poultry and Egg Export Council (USAPEEC) National Chicken Cooking Competition in June 2025 and the second edition of the Joy Prime 'Big Chef' Tertiary Cooking Competition in December 2024. Additionally, HTU hosted and emerged victorious at the 9th Annual Tertiary Cadet Corps Congress. These accomplishments are a testament to our unwavering pursuit of academic excellence, research, and our meaningful impact on both local and global communities.

Our commitment to setting the agenda for finding solutions to national challenges also led to the organization of the Maiden Food, Agriculture, Technology, and Sustainability (FATAS) Conference, which took place from 17th -19th November, 2025. The conference, themed, **"Rethinking the Future of Food and its Allied Systems in an Era of Sustainability and Circularity,"** attracted both national and international participants.

Further, our capacity in grantsmanship continues to deepen as seen in the implementation of Centres of Excellence in the University namely the Ghana Circular Economy Centre (GCEC), the Solar Technology Application Resource Centre (STAR-C), and the Centre of Excellence in Biomedical Engineering among others.

Despite the challenges faced within the educational landscape, we remain unwavering in our commitment to fostering an enabling environment and robust support systems that empower our students and graduates.

I wish to extend my heartfelt gratitude to the Ministry of Education, the Governing Council, Executive Management Committee, the Academic Board, Regulatory Bodies, Ghana Education Trust Fund, Volta Regional Coordinating Council, our esteemed partners, sponsors, faculty, staff, students, alumni, and the entire university community. Your steadfast support, commitment, and contributions have been instrumental in propelling Ho Technical University towards its growth and development.

Congratulations to our new graduates!

Adanu Nazu Kekeli!

PROF. BEN Q. HONYENUGA, VICE-CHANCELLOR

REPORT

PROF. BEN Q. HONYENUGA

Vice-Chancellor

Introduction

This report presents a detailed overview of the significant milestones and developments achieved since the 25th Congregation held on 29th November 2024. We have made remarkable progress in implementing the Strategic Plan for 2023-2027, focusing on key areas such as **Teaching and Learning, Research and Innovation, Student Engagement and Experiences, Partnerships and Internationalization, Governance and Institutional Development, Sustainable Infrastructural Development, and Financial Sustainability**. Among our key accomplishments over the period include the introduction and implementation of innovative programme offerings designed to align with current trends and demands, the expansion of experiential

learning opportunities, and the enhancement of support services that cater for the diverse needs of our student body. We have also introduced initiatives targeting at cultivating a vibrant campus community, promoting collaboration and inclusion among all students. The unwavering support and commitment of the Governing Council, Academic Board, and Management to fostering an exceptional educational environment, is vividly reflected in our successes and achievements as outlined in this report. As we reflect on our accomplishments, we anticipate to build on our successes as we move forward into the future with hope and optimism.

01

TEACHING AND LEARNING

- **Hospitality & Tourism Management (HTM) as Niche Area**

The University remains committed to promoting its niche area by equipping students with the skills and knowledge necessary to make significant contributions to the growth, sustainability, and innovation of the hospitality and service industries. Our unwavering commitment to the niche area has not only strengthened our academic offerings but also earned us various local and international awards, further affirming our leadership and excellence in the field.

Currently, the University offers the following programmes aligned with the niche area:

- MSc. Hospitality and Tourism Management.
- BTech Hospitality Management.
- BTech Tourism, Leisure and Events Management.
- HND. Hotel, Catering, and Institutional Management.
- Diploma in Hospitality Management.
- Certificate Course in Cake & Sugar Art.
- Certificate Course in Floral & Balloon Techniques.

In our commitment to furthering the niche area, the Department of Hospitality and Tourism Management (HTM) also initiated programmes aimed at adopting and developing various tourist sites in the Volta Region, including the Wli Water Falls and the Tafi Monkey Sanctuary. These initiatives also involved enhancing the skills and expertise of the members of the Hoteliers and Chef Association of Ghana, among others.

- **Introduction of New Programmes**

This is a major milestone in the history of our university, as we have expanded our offerings from having no four-year Bachelor's degree programmes to now providing over 27 Bachelor's degree programmes. Some of the new programmes which were introduced during the period include, but not limited to the following:

- MSc Agricultural Technology
- MSc Food Science and Technology
- MSc Statistics and Data Science
- Diploma in Hospitality Operations (Hospitality Management)

- Diploma in Business Administration (Marketing)
- Diploma in Business Administration (Procurement)
- Diploma in Business Administration (Accounting)
- Diploma in Business Administration (Management)
- Diploma in Business Administration (Marketing)
- Diploma in Business Administration (Office Administration and Management)
- Diploma in Business Administration (Secretaryship and Management Studies)
- Diploma in Statistics with Finance

• **Update on Fabrication Laboratory at HTU**

Following the establishment of the Fabrication Laboratory (Fab Lab) at Ho Technical University (HTU), the institution embarked on an exciting journey of innovation and practical learning as part of our international collaboration and joint research project initiatives with the Rhine-Waal University of Applied Sciences (HSRW). With funding from DAAD, this project has proven instrumental in enhancing innovation and research capabilities of our students. To ensure the seamless operation and efficient management of the Fab Lab, some faculty and staff participated in comprehensive hands-on training programmes in Germany. In addition to the training conducted abroad, on-campus training programmes and workshops have been organized for faculty and staff, focusing on the practical applications of the Fab Lab. Also, a female engineer from the Department of Electrical/Electronic Engineering has been nominated to travel to Germany in December 2025 for further training on the facility's use and operations. Looking ahead, a Fab Lab Academy will be launched in the next academic year to provide specialized training for faculty, staff and students. This Academy will serve as a hub for creativity and innovation, offering workshops and courses tailored to enhance skills in modern fabrication techniques and design thinking. By fostering a hands-on learning environment, the initiative aims to inspire the next generation of innovators to lead in technology and entrepreneurship.

• **New Architectural Technology Studios**

Two (2) new Architectural Technology Studios have been established for the Department of Architectural and Real

Estate Management to enhance the educational experience for students enrolled in the Architectural Technology programme at HTU. The studios serve as collaborative spaces where students engage in hands-on projects, workshops, and group discussions, fostering a sense of community among peers and encouraging teamwork. The studios also serve as a platform for faculty and industry practitioners to provide mentorship, guidance, and insights into current trends and best practices. The provision of this modern learning environment reflects the University's commitment to supporting the academic and professional growth of our students.

• **Resourcing of Automobile Workshop**

As part of efforts to retool the Automobile Workshop during the period under review, the University acquired a modern vehicle diagnostic tool, the Autel MaxiIM IM608S equipment. This advanced vehicle diagnostic equipment is designed to improve students' practical training experiences while also elevating the service delivery standards within the workshop. The Autel MaxiIM IM608S features an extensive database of vehicle coverage, enabling students to diagnose a wide range of makes and models accurately. This tool aids in identifying faults and troubleshooting and also provides users with advanced functionalities such as key programming and service resets. This also offers our students the opportunity to familiarize themselves with industry-standard diagnostic practices, ensuring they remain competitive in the job market upon graduation.

• **Retooling of Welding Laboratory**

In alignment with the strategic objectives outlined in the HTU Strategic Plan (2023-2027), the Welding Laboratory within the Department of Mechanical Engineering was retooled with cutting-edge technology and advanced machinery. This initiative was implemented to enhance our educational offerings in welding, fabrication, and pipe-fitting, and to ultimately prepare our students for successful careers in these critical fields. All relevant equipment and machinery have already been delivered and installed. By investing in these critical resources, the University is ensuring that its curriculum remains relevant, continually aligned with industry standards, and effectively prepares students for the demands of the job market. This strategic enhancement also aims to cultivate a more competent workforce within the fields of Welding, Design, and Manufacturing. HTU is grateful to the Government of Ghana through the Commission for Technical and Vocational Education and Training (CTVET) for funding the project.

• **The University Library**

Management remains committed to ensuring that the University Library continues to provide a wide range of services that improve access to current resources, including an extensive selection of both physical and digital materials. These include e-books, academic

journals, and databases that are crucial for contemporary research. To further bolster these offerings, strategic budgetary allocations have been made towards upgrading our technological infrastructure, to enhance access to digital resources, and support advanced research initiatives.

Over the past year, the University procured three hundred (300) new pieces of furniture for the University Library. Management also deployed additional pieces from the University's existing inventory to optimize the layout and utility of the Library. Further, the professional capacity of the Library staff continues to grow. In alignment with the University's commitment to staff development, five (5) library staff were granted the opportunity to pursue further studies in relevant areas. One other faculty also completed her PhD programme within the period. These efforts reflect the University's ongoing dedication to enhancing the capabilities of personnel at the University Library.

Additionally, on 14th February, 2025, the University Library organized a Chocolate Day as part of efforts to encourage freshers and continuing students to patronize the library. Chocolates were distributed to individuals who visited the University Library. The event offered a warm and welcoming atmosphere, encouraging new students to explore the library facilities and discover the tools that could enhance their learning experience. By blending a fun social experience with educational outreach, the

Chocolate Day effectively strengthened the library's role as a central hub for academic support within the university community.

- **Retooling of Cosmetology Laboratory**

The Cosmetology Laboratory has undergone extensive renovations and retooling, incorporating equipment and resources to better support our students' educational journeys. These enhancements are part of our commitment to providing conducive learning environment, particularly as we prepare to introduce an exciting new programme focused on Beauty and Wellness, among others. These initiatives will not only enhance the practical experience for our students but also ensure they are well-equipped with the latest skills and knowledge necessary to thrive in the dynamic field of cosmetology.

- **Establishment of Digital Lab**

In line with Management's initiative to retool the University's Computer Laboratories, a state-of-the-art Digital Lab has been established within the Department of Computer Science. This state-of-the-art facility features a remarkable selection of high-performance computers and advanced accessories designed to enhance teaching methods and enrich the educational experience for our students. The Digital Lab is equipped with the latest software and hardware, positioning it as a collaborative hub for both students and faculty. This innovative space not only supports the Computer Science curriculum but also aligns with the goals of various other departments across the University, promoting interdisciplinary learning and fostering innovation. We are excited about the positive influence this new facility is having on our educational practices and the overall learning outcomes for our students.

- **Outreach Programmes**

In a strategic effort to enhance student enrolment in the University, Management instituted dedicated outreach teams focused on driving a series of comprehensive admission initiatives throughout the country. Comprised of both faculty and staff, these teams played a pivotal

role in actively engaging with prospective students and their families, showcasing the diverse programme offerings available at HTU. The outreach teams visited 86 second cycle institutions and participated in some educational fairs, which served as excellent avenues for disseminating information about the University. In fact, the impact of these initiatives has been significant over the period. The University has witnessed a notable increase in our admission figures over recent academic cycles, reflecting the effectiveness of our outreach efforts in raising awareness about the University's offerings. The combined approach of direct engagement and strategic participation in educational events has proven to be an effective strategy, fostering connections with prospective students and their guardians.

- **Graduation ceremony for Trainees of the University's Apprenticeship programme.**

A graduation ceremony for 28 trainees of the apprenticeship programme of the University was held on Tuesday, 5th August, 2025, at the Nkulenu Demonstration Restaurant. The event celebrated the accomplishments of the third cohort of graduates under this initiative. This cohort comprised ten (10) trainees in the Certificate Course in Beauty and Wellness, ten (10) in Dressmaking, seven in Auto Mechanics, and one (1) in Carpentry and Joinery. The apprenticeship programme exemplifies our unwavering belief in the potential of our students and the promise of our industry. The initiative also represents a significant step toward fostering inclusion and innovation in education, creating diverse pathways for young individuals to join the university community and contribute meaningfully to national development.

- **32nd Matriculation Ceremony of the University**

The 32nd Matriculation Ceremony of the University was held on Friday, 28th February, 2025, marking a significant milestone in the history of the University. A total of 4,120 new students were officially matriculated on the day. The event, which was held in three separate sessions, was presided over by the Vice-Chancellor and well-attended by Management officers, Deans, Directors, Heads of Department, Convocation, and students.

- **25th Congregation of Ho Technical University**

The 25th Congregation Ceremony of Ho Technical University was held on 29th November 2024, at the G.M. Afeti Auditorium. A total of 1,632 graduates received various degrees and diplomas during this event. The ceremony was presided over by Mrs. Levina Baah-Nuakoh, the Acting Chairperson of the Council. The Guest Speaker for the occasion was Mr. Churchill Kartey Amedzeame Gati, an alumnus and Managing Director of Cabrid Company Limited. Mr. Kartey provided insights that highlighted his successful career, inspiring graduates to harness the skills they have acquired at HTU to create jobs for themselves and others.

- **Faculty/Departmental Open Days and Exhibitions**

During the period under review, Faculty/Departments organized Open Days and Exhibitions as part of their Faculty Week celebrations as detailed below.

The Faculty of Art and Design commemorated its 7th Faculty Week from 22nd to 26th July, 2025, under the captivating theme "Safari Soirée – Elegance, Wildlife, and Culture." A highlight of the celebration was an exhibition that displayed the works of faculty, staff and students, which attracted people from all walks of life. To foster community spirit, a series of interactive games were also organized, providing students and faculty a chance to connect in informal settings. The culmination of the week was marked by an extravagant Fashion Show that showcased innovative designs and talents from students, celebrating both creativity and craftsmanship amidst a beautifully decorated runway.

Similarly, the Faculty of Applied Science and Technology (FAST) held its annual FAST Week celebration from 28th July, 2025, to 3rd August, 2025, under the theme "Innovating for a Sustainable Future: Bridging Science, Technology, and Society." The celebration was officially launched on Monday, 28th July, 2025 at the G.M. Afeti

Auditorium, with Chief Executive Officer of CelTel Network Ltd, Mr Prince Kofi Kudjeson, serving as Special Guest of Honour. The week-long event brought together students, faculty, and industry partners for a dynamic showcase of academic excellence, creativity, and community engagement. During the FAST Week

celebrations, students from the Computer Science Department showcased their knowledge and skills by offering free repairs and maintenance of computers and accessories, and mobile phones to the University community and beyond.

Further enriching the academic environment, the Faculty of Engineering held its Faculty Week and Exhibition, from 15th to 19th July 2025, themed “Collaborative Engineering: Inspiring Innovation for Sustainable Development.” This week was marked by a series of diverse exhibitions aimed at showcasing engineering projects that address pressing global challenges. Students presented collaborative projects that highlighted the integration of technology and engineering principles with sustainability goals. The exhibitions provided an opportunity for students to engage with industry professionals and peers, fostering collaboration and the exchange of ideas. The enthusiasm and creativity displayed throughout the Faculty Weeks not only enriched the academic experience but also strengthened the sense of community and collaboration within the university.

- **Commemoration of World Engineering Day**

On 4th March, 2025, the Faculty of Engineering commemorated the World Engineering Day in the G.M. Afeti Auditorium, with the inspiring theme “Unleashing the Power of Engineers to Advance the Sustainable Development Goals.” This event highlighted the vital role of engineers in driving sustainable practices and innovations that align with global development objectives. Ing. Sophia Abena Tijani, a distinguished expert in her field, served as Guest Speaker for the event. She shared her insights and experiences to inspire participants about the transformative potential of engineering in addressing urgent global challenges.

- **Procurement of Classroom Furniture**

In our continuous effort to enhance the learning environment on campus, Management made significant investment in procuring additional 480 classroom furniture, including tables and chairs. The new pieces of classroom furniture have been strategically deployed in our most critical lecture halls to ensure that our students have access to comfortable and functional seating while they engage in their educational pursuits. Also, 20 drafting tables and 20 drawing tables were procured for the Department of Building Technology and the Department of Architecture and Real Estate Management respectively. Additionally, Management acquired an additional 250 pieces of classroom furniture for the HTU Basic School to enhance the educational experience of our pupils. Together, these efforts reflect our dedication to fostering a supportive and effective learning environment for all students across the University campus.

TECHNICAL UNIVERSITY
IN GHANA BASED ON PROGRESS
TOWARDS SDGs

- **Food, Agriculture, Technology, and Sustainability (FATAS) Conference of the University**

In line with Management's commitment to advancing research initiatives, the University hosted the Food, Agriculture, Technology, and Sustainability (FATAS) Conference from Monday, 17th November 2025, to Wednesday, 19th November, 2025. Under the theme "Rethinking the Future of Food and its Allied Systems in an Era of Sustainability and Circularity," the conference sought to foster collaboration among policymakers, researchers, industry experts, and development partners to explore innovative strategies for building sustainable food systems. The opening ceremony of the conference featured keynote addresses from Prof. Eric Yirenkyi Danquah, a Professor of Plant Genetics at the University of Ghana, and Prof. (Mrs.) Ibok Nsa Oduro, a Professor of Postharvest Technology at KNUST.

The Vice-Chancellor, Prof. Ben Q. Honyenuga, in his welcome address, reiterated the need for integration

of technology, innovation, and appropriate policies to create circular systems where waste becomes a resource, efficiency replaces excess, and sustainability becomes a standard.

The Minister for Food and Agriculture, Hon. Eric Opoku, who served as the Guest of Honour for the conference, commended Management, Faculty and Staff for their dedicated efforts. He also highlighted the government's vision and initiatives, particularly the Feed Ghana Programme, aimed at enhancing agricultural productivity and repositioning the sector as a key driver of economic growth. The conference drew the participation of numerous dignitaries, including the Volta Regional Minister, Hon. James Gunu, and the Ho Municipal Chief Executive, Hon. Stephen Adom among others. It also attracted international participants from Germany, UK, Finland, and Nigeria. It is worthy to note that Management is collaborating with the Taylor & Francis Group to publish the proceedings of the conference.

- **Improvement in Research Drive of Faculty**

The University has been experiencing a significant improvement in its research visibility and output on major academic platforms such as Web of Science and Scopus. Notably, the number of research publications indexed in Scopus has shown remarkable growth, increasing from just 4 articles in 2012 to a total of 631 publications as of October, 2025.

- **Update on Establishment of a Centre of Excellence in Biomedical Engineering at HTU**

As reported during the 25th Congregation, Ho Technical University has secured 2,148,015 Euros grant through a Call for Proposals from the Skills Initiative for Africa (SIFA), in partnership with the Lucas Nulle Group in Germany. This project aims to establish a Biomedical Engineering Centre that will enhance the employability of young people by providing hands-on training in the maintenance and repair of biomedical equipment. Given Ghana's significant demand for Biomedical Engineers, this initiative also aims to bridge the gap created by the shortage of skilled and qualified professionals in the sector.

By training a competent workforce capable of maintaining and repairing biomedical equipment, this project will play a vital role in improving healthcare delivery and ensuring that medical facilities receive the essential technical expertise they require. Indeed, this strategic investment in education and skills development is expected to have a lasting impact on the healthcare landscape in Ghana and beyond.

We wish to highlight that, all critical equipment for the establishment of the Biomedical Engineering Centre have been supplied by our partners, Lucas Nulle GmbH. We extend our immense gratitude to the AUDA- NEPAD, SIFA, and our partners Lucas Nulle GmbH, for the grant and support. We also wish to express our sincere appreciation to the Government of Ghana, through the Ministry of Finance and the Ministry of Education, for their support and assistance in granting the necessary tax exemptions that enabled the University to clear the goods at the Tema Port.

- **Update on Solar Technology Application Resource (STAR) Centre at HTU**

In May 2023, the University took an important step to promote solar energy technologies in Ghana by signing an agreement with the Ministry of Energy and Green Transition and the International Solar Alliance (ISA). Since the establishment and commissioning of the STAR Centre at HTU, significant progress has been made toward the successful implementation of this innovative project. The STAR Centre is expected to serve as a centralized hub for the dissemination of advanced technology, knowledge, and expertise, addressing both national and regional needs. It focuses on four key functions: training, testing, innovation, and knowledge management. As part of the project implementation activities, the University collaborated with key stakeholders in the renewable energy sector to conduct virtual training programmes during the period. Under the theme "Empowering Government Workplaces with Solar Energy: Importance, Benefits, and Strategic Integration," these programmes targeted participants from various public institutions. The primary aim is to equip

them with practical knowledge and strategic insights regarding the deployment of solar energy solutions. These capacity building sessions are a crucial component of HTU's broader efforts to foster partnerships, build capacity, and promote sustainability-focused innovations that address both national and global energy challenges.

The Facilitators for these training programmes include Ing. Seth Mahu, a seasoned Energy Consultant and the Director of Renewable Energy and Green Transitions at the Ministry of Energy & Green Transition; Prof. Richard Turkson, the Dean of the School of Graduate Studies and Coordinator for the STAR-C at HTU; and Ing. Dr. Seth T.K. Dzokoto, a key member of the HTU STAR-C Team. The STAR-C is a tripartite partnership involving the ISA and its partners, Ministry of Energy and Green Transition as well as HTU. We are very grateful to the ISA and its partners, the Government of Ghana as well as the Ministry of Energy and Green Transition for their support in this regard.

- **Green Campus Project at HTU**

Ho Technical University (HTU) has signed a Memorandum of Understanding (MoU) with the Korea Association of Machinery Industry (KOAMI) to advance our Green Campus agenda and strengthen collaboration in renewable energy and sustainable technologies. The partnership agreement, which follows earlier engagements between the two institutions, is aimed at positioning HTU as a model of sustainability in higher education and a leader in renewable energy innovation within the sub-region. The agreement focuses on key areas such as renewable energy infrastructure, research, training, and technology transfer. A major highlight of the partnership is the proposal to establish a Photovoltaic (PV) Certification Centre on the University campus. KOAMI will bring its expertise in green technologies and international cooperation to complement HTU's strides in renewable energy, especially through its Solar Technology Application Resource Centre (STAR-C), a flagship project of the International Solar Alliance in partnership with Ghana's Ministry of Energy and Green Transition. The project aligns with the University's mission and builds on its existing achievements in solar energy and

sustainability and would contribute to making the University more energy-efficient and environmentally friendly, while offering opportunities for research and student training.

Further, the MoU is expected to pave the way for pilot projects, workshops and infrastructure upgrades on campus, beginning with the PV Certification Centre. We are optimistic that the agreement will contribute significantly to reducing the University's carbon footprint, lowering energy costs and creating a practical model of sustainability that can be replicated across other institutions in the country and beyond. The Chief Director at the Ministry of Energy and Green Transition, Mr. Solomon Adjetei Sowah, and the Director for Renewable Energy at the Ministry of Energy and Green Transition, Ing. Seth Mahu, were present at the signing. As the National Certification Focal Institution (NCFI) for the ECOWAS Regional Certification Scheme for Sustainable Energy Skills (ECSES) and host of the Solar Technology Application Resource Centre (STAR-C) in Ghana, Ho Technical University is committed to leading initiatives that promote the use of renewable energy.

- **Update on the UNIDO Circular Economy Centre Project at HTU**

Following the inauguration of the UNIDO-Ghana Circular Economy Centre at the Ho Technical University (HTU) on 23rd October 2024, several actions have been initiated to advance the implementation of the project. As Host Institution, and in alignment with our commitment to strengthen the strategic direction of the Ghana Circular Economy Centre, new Vision and Mission Statements that encapsulate our collective aspirations and long-term objectives have been developed for the Centre. It is important to note that a team from the Canadian High Commission and UNIDO also visited the University on 14th October 2025, to assess our progress on these implementation processes. In fact, the Ghana Circular Economy Centre (GCEC) aims to promote sustainability in agriculture and agro-processing, textiles, and plastics by advocating circular economy practices. Through innovative strategies, the project is designed to enhance

resource efficiency, minimize waste, and foster sustainable job creation, with a particular focus on empowering women and youth. This five-year initiative, funded by Global Affairs Canada, is being implemented by UNIDO in collaboration with the Ministry of Environment, Science, Technology, and Innovation (MESTI). The goal is to cultivate a circular economy that drives inclusive economic prosperity and supports a low-carbon economy, with a significant focus on benefiting women and youth in Ghana. As part of this initiative, the Kwame Nkrumah University of Science and Technology (KNUST), the University of Cape Coast (UCC), and The Or Foundation will serve as Value Chain Leads for agriculture and agro-processing, plastics, and textiles, respectively. Further, the newly appointed Executive Director of the UNIDO-Ghana Circular Economy Centre, Dr. Marindame Kombate, was formally introduced to Management at a brief ceremony on Monday, 3rd November 2025.

- **Update on HTU Baobab Project**

The HTU Baobab Research Project has garnered significant local and international interest due to its innovative development of a new variety of baobab seedlings that mature in just 27 months. This ground-breaking advancement represents a shift towards more efficient and sustainable baobab cultivation practices, appealing to both agricultural communities and environmental advocates. In recognition of its pioneering work, the University has proudly joined the African Baobab Alliance, a collaborative network dedicated to promoting the sustainable use of baobab and ensuring its conservation. Furthermore, the project has received formal acknowledgement from the Food and Agriculture Organization (FAO) of the United Nations, underscoring its importance in global efforts to support biodiversity and combat climate change. This recognition highlights the project's commitment to sustainable practices and the potential of baobab as a valuable resource for food security and nutrition.

To facilitate practical training and hands-on experience, two model baobab farms have been established; one located in the southern region of Ghana and the other in the Upper West Region. These initiative-driven farms have been funded by Atmosmare Foundation, a Finnish organization dedicated to supporting sustainable agricultural practices. The farms are strategically designed to serve as centers for knowledge exchange, where local farmers can learn about baobab cultivation techniques, including planting, harvesting, and processing. With a target of planting 2,000 baobab trees, this initiative aims not only to enhance food diversification but also to bolster climate resilience in the face of changing environmental conditions.

In a significant development, Mr. Esko Pettay from the Atmosmare Foundation visited HTU during the third quarter of 2025. This visit was pivotal, providing an opportunity for direct engagement with project stakeholders and a chance to assess the progress and impact of the initiative. Additionally, ongoing research activities with other local and international partners are being conducted to explore the full potential and long-term impact of the baobab project. These studies aim to uncover new insights into the ecological benefits of baobab trees, their role in local economies, and their contribution to sustainable agricultural practices.

- **Digital Skills Centre Project on Empowering Young People**

Ho Technical University is collaborating with Plan International Ghana and its partners, including Nokia, NGIC, CENDLOS, and some other institutions, to establish a Digital Skills Centre. This initiative aims to empower young individuals, particularly women and persons with disabilities. The project will target a total of 360 young people; undergraduate IT students from tertiary institutions and recent graduates across three universities namely: University for Development Studies(UDS), Ho Technical University(HTU), and the University of Ghana (UG), over a three-year implementation period. The demographic will consist of 50% girls and 50% boys, including individuals with disabilities. The Digital Skills Centre project aims to increase digital skills acquisition, improve employability, and enhance entrepreneurial opportunities for young people. By addressing the digital skills gap, the project seeks to integrate participants into the digital economy, focusing on the latest technologies through the deployment of 5G infrastructure. It specifically targets young individuals with a background in technology, especially girls and persons with disabilities, who are eager to transform their theoretical knowledge into practical applications that will benefit their communities.

- **E4Impact Project - European Union (EU) - Ghana Pact for Skills Project**

In response to a Call for Proposals and rigorous assessment processes, Ho Technical University (HTU) has been selected as one of the six (6) universities in Ghana to host the Green Entrepreneurship Acceleration and Incubation Programmes in partnership with E4Impact Foundation under the EU-Ghana Pact for Skills project, specifically for the Entrepreneurship Stream. We are excited to be a part of this initiative and appreciate the opportunity to contribute to the development of students and aspiring entrepreneurs to enhance the socio-economic development of our nation and beyond. The necessary agreements have been signed and Management has appointed a Programme Leader, Business Coach and critical Faculty to facilitate the implementation of the project in the University.

- **HTU - World Food Programme(WFP) Project**

Ho Technical University has won a project of the World Food Programme (WFP), an autonomous joint subsidiary programme of the Food and Agriculture Organization of the United Nations. The project aims to support the World Food Programme's (WFP) efforts in fostering sustainable development and resilience through graduate empowerment. A brand new tractor, a disc plough, two multipurpose threshers, two multipurpose dryers, and twenty-five boxes of assorted tools have been donated to the University as part of the project. Additionally, two existing tractors were rehabilitated for the University. The World Food Programme (WFP) also disbursed the sum of GHS291,814.00 for the project's implementation in the University.

- **Gender Equality Partnerships Project**

Ho Technical University is collaborating with the University of Nottingham (UoN), and the Association of African Universities (AAU) on the Gender Equality Project to help increase the number of female STEM

lecturers in leadership roles at Ghana's Technical Universities. Funded by the British Council, this project is part of global efforts to promote gender equality in academia. Running from January 2025 to February 2026, the project intends to inform evidence-based policies and create supportive initiatives that enhance research output and leadership skills among female academics. By the end of the project, we expect to see more women in leadership roles, stronger advocacy in policy-making, and increased visibility for female lecturers, ultimately making Ghana's technical universities more inclusive and equitable.

- **Update on Ghana Skills Development Fund Projects**

Ho Technical University is proud to have served as the consulting body for three (3) significant grant contracts awarded by the Commission for Technical and Vocational Education and Training (CTVET) to the Ghana National Association of Garages (GNAG). These grants were specifically allocated for training in three

(3) key trade areas, namely: Auto Mechanics, Auto Electricians, and Welders & Fabricators, all under the auspices of the Ghana National Association of Garages (GNAG). Over a span of six (6) months, these training programmes were meticulously designed and executed by the Department of Mechanical Engineering, with oversight from the HTU TVERC Centre. Each programme was designed to enhance the skills and practical knowledge of the participating artisans, ensuring they are well-equipped to meet industry demands and standards. The success of these initiatives highlights the collaborative efforts between Ho Technical University, GNAG, and CTNET in fulfilling the mission of advancing educational opportunities and promoting skill acquisition among artisans in Ghana. The initiatives also reflect the government's dedication to bolstering vocational training and workforce development in the automotive and fabrication sectors.

- **Update on 2024 Ghana Jobs & Skills Apprenticeship Programme (GJS-AP)**

The University through the Technical Vocational Education and Resource Centre (TVERC) successfully implemented the first phase of the Ghana Jobs & Skills Apprenticeship Programme (GJS-AP) under the auspices of the Commission for Technical and Vocational Education and Training (CTNET). This initiative benefited registered apprentices from several associations, including the Ghana National Tailors and Dressmakers Association (GNTDA), Ghana Cooperative Fashion Designers Association (GCFDA), Ghana Electronics Servicing Technicians' Association (GESTA), Ghana Hairdressers & Beauticians Association (GHABA), National Association of Beauticians & Hairdressers (NABH), and the Ghana National Association of Garages (GNAG). The primary objective of the first phase of the GJS-AP was to provide training that would enable apprentices to earn National Proficiency Level 1 certificates across six trade areas namely: Garment Making, Consumer Electronics, Cosmetology, Welding and Fabrication, Automotive Engineering, and Furniture Making. Although a total of two hundred (200) apprentices enrolled in programme, one hundred and seventy-eight (178) successfully completed training across all units in their respective trade areas.

- **Update on HTU –KIC Project**

Ho Technical University collaborated with the Kosmos Innovation Centre (KIC) on the Young Farmer Business Academy (YFBA) project. This initiative, executed by the HTU Project Team, spanned between four to seven months and aimed to empower young individuals to embark on their own agribusiness ventures. The program provided a robust framework that included informative training sessions, engaging workshops, and practical experiences designed to help participants establish and manage their own farms. Through hands-on activities, field demonstrations, personalized coaching, and dedicated mentorship, attendees were encouraged to delve into agri-production and its related sectors, enabling them to identify promising business opportunities.

- **Sixth Edition of HTU-CIMG/GOIL Entrepreneurship Innovation and Marketing Awards**

The sixth edition of the HTU-CIMG/GOIL Entrepreneurship Innovation and Marketing Awards took place on Thursday, 10th July 2025, in the G.M. Afeti Auditorium. The event showcased the entrepreneurial spirit and innovative ideas of students from various disciplines. Competing against an impressive pool of over 120 applications, Team ECOFERT emerged victorious in the pitching competition, securing first place. The team members, namely Owen Deladem Gbevoadi, Joshua Anaga, and Ismail Idrisu, showcased their innovative business concept, earning themselves a prize of

GHS 20,000.00. Their pitch stood out amongst seven finalist teams, demonstrating not only creativity but also strategic thinking and effective communication. The competition also featured strong performances from the runner-ups, with Team ECOWRAP clinching second place and being awarded GHS 15,000.00 for their commendable efforts. Team NATURE TEX took home the third prize, receiving GHS 10,000.00. The HTU-CIMG/GOIL awards play a crucial role in fostering entrepreneurship among students. By providing financial support, professional coaching, and a platform to launch their business ideas, the programme aims to empower young innovators. The University is grateful to GOIL for the continuous funding of the project.

- **Update on HTU Research Fund**

The HTU Research Fund which was established in 2022, aims to foster a robust research environment by providing financial support to research teams engaged in impactful projects. The research projects are anticipated to tackle existing challenges and make substantial contributions to improving faculty research outcomes. Over the years, the following principal investigators/research teams were awarded funds to pursue their innovative research endeavours:

- **Dr. Jennifer E. Adaletey**

Towards Sustainable Higher Education Institutional Financing for Effective Teaching and Learning: Technical Universities of Ghana in Perspective.

- **Dr. Justice S.T. Zotorvie**

Enhancing Revenue Diversity for Local Governments in Ghana: A Proposal for Area-Based Property Taxation.

- **Dr. Courage Sedem Dzah**

Maximum Capacity Pectin Encapsulation of Phenol-Iron Nanoparticles Through Ultrasound - Assisted Calcium Crosslinking.

- **Dr. Worlanyo Saviour Akuamoah**

A queueing simulation method for evaluating the performance of resource management in mutual mode.

- **Prof. Kenneth Fafa Egbadzor**

Confirmation of Cleistogamy in Baobab (*Adansonia digitate*).

- **Ms. Joy Afua Agama**

The effectiveness of user guides as self-teaching aids in installation and operation of home appliances.

- **Dr. Maxwell Kwame Boakye**

The influence of fuelwood attributes on plant species selection by small-scale industrial processors in the Volta Region: Implication on tree planting programme.

- **Dr. Baidenger Agyekum Twumasi**

Study of on/off body antennas for biomedical imaging and wireless power transfer applications .

- **Prof. George Harrison Coffie**

An investigation into borehole sinking process and the quality of borehole water in Ho municipality.

- **Dr. Kwabena Darko Akuamoah**

Indigenous Authorities and Conflict Management: Konkomba-Dagomba Chiefdoms, a perspective.

- **Arc. Jeannette A. Attipoe**

Architectural physical models as an integral component for teaching and learning: "The Living Lab Project - HTU.

- **Dr. Liticia Effah-Manu**

Comparative Study of Okra Pectin and Tamarind Xyloglucan as Gelling Polysaccharides in Chocolate Spread .

- **Production of Solar-Powered Tricycle by the Department of Mechanical Engineering**

The Department of Mechanical Engineering has made significant strides in sustainable transportation with the development of a solar-powered tricycle. This innovative vehicle stands out as an eco-friendly alternative to traditional motorized transport, addressing the escalating concerns over fuel prices and the urgent need for environmental stewardship. The solar-powered tricycle is specifically designed to be both practical and efficient, harnessing solar energy to power its operations. This initiative show

cases the Departments' commitment to finding solutions that resonate with current global challenges, particularly the rising costs of fuel and the impact of carbon emissions on our planet. Notably, the tricycle's body and chassis, along with other components, were fabricated within the Department of Mechanical Engineering, showcasing the hands-on approach to learning that the programme promotes.

- **Maiden Inaugural Lecture**

Following his well-deserved promotion to the rank of Professor in the Department of Management Sciences, Prof. Ben Honyenuga delivered the University's Inaugural Lecture on 9th July, 2025. The Inaugural Lecture, titled "Navigating a Model of High-Performance Organizations in Ghana: Reflections on a Chameleon Business Environment," explored how businesses in Ghana can adapt and thrive amid changing economic conditions. Drawing from his extensive research and professional experiences, he emphasized the need for organizations to navigate the turbulent environment with deliberate strategies, agility, internal capability development, and resilience, so as to survive and become high-performing organizations. The event attracted a diverse audience, including scholars, industry leaders,

faculty, staff, students, and several dignitaries. Prof. Honyenuga's thought-provoking presentation highlighted the University's role as a hub for innovative research and knowledge dissemination, further reinforcing HTU's reputation in both local and international academic circles.

Prior to the Inaugural Lecture, the University Library organized a special exhibition from 7th-10th July, 2025, celebrating the scholarly work of Prof. Ben Q. Honyenuga. The exhibition was opened by the Pro-Vice-Chancellor, Prof. Christopher Mensah, with Prof. Maxwell Edem Azila-Gbetor delivering the Keynote Address which eulogized the works and impact of Prof. Ben Q. Honyenuga.

TECHNICAL UNIVERSITY
IN GHANA BASED ON PROGRESS
TOWARDS SDGs

- **Appointment of Acting Dean of Students Affairs**

Dr. Baidenger Agyekum Twumasi, a Senior Lecturer and the former Head of the Department of Electrical/Electronic Engineering, has been appointed as the Acting Dean of Student Affairs. This transition follows the end of Prof. Elizabeth Obinnim's tenure, during which she made history as the first female to hold this role. Over her three years in office, Prof. Obinnim demonstrated exceptional strategic leadership and a steadfast commitment to fostering student-centered development. We extend our heartfelt appreciation to Prof. Obinnim for her significant contributions and wish Dr. Agyekum Twumasi every success in his new position.

- **Promotion/Appointment of Associate Professors**

The Governing Council at its 117th Regular Meeting held on 3rd January, 2025, approved a recommendation from the University Appointments and Promotions Board (UAPB) to promote two (2) Senior Lecturers to the grade of Associate Professors in their respective departments. They are **Prof. Eli Ayawo Atatsi from the Department of Management Sciences** and **Prof. Elizabeth Dzigbordi Obinnim from the Department of Fashion Design and Textiles**.

- **New SRC Executives for the 2025/2026 Academic Year**

The 32nd Handing Over Ceremony of the HTU Students' Representative Council (SRC) took place on Saturday, 4th October 2025, at the SRC-JCR. This significant event served as a ceremonial transition, officially marking the handover of leadership responsibilities from the outgoing 31st SRC administration, which was led by Ms. Magdalene Aduako, to the newly elected SRC Executives of the University.

The newly elected HTU SRC Executives are:

- Emmanuel Yao Akpabli	President
- Willfred Kwabla Agbo	Vice-President
- Sandra Mawuse Kpeh	General Secretary
- Eugene Kpabitey Nomo	Financial Sec.
- Divine Enyam Tsyewu	Org. Secretary

During the ceremony, both the outgoing and incoming executives shared their experiences, aspirations, and visions for the SRC's future. The expectation is that the newly elected SRC Executives will lead the students with integrity, innovation, and a strong sense of responsibility.

- **FAWE-MasterCard Foundation Scholarship for Students**

With support from the Gender Affairs Office, a total of fifty-nine (59) students of the University have been awarded the FAWE-MasterCard Foundation Scholarship for the 2024/2025 academic year. This scholarship programme, spearheaded by the Forum for African Women Educationalists (FAWE) Ghana, seeks to empower and uplift girls and women by providing them with access to quality education. FAWE Ghana is a dedicated Non-Governmental Organization (NGO) focused on fostering educational opportunities, encouraging personal growth, and addressing the challenges faced by young women in their academic pursuits. This initiative not only supports the beneficiaries financially but also aims to inspire them to become future leaders and change-makers in their communities. We wish to commend the Forum for African Women Educationalists (FAWE) Ghana, and MasterCard Foundation for their magnanimity and support.

- **Ghana National Petroleum Corporation (GNPC) Foundation Scholarship**

Eleven (11) students from the University have been awarded scholarships by the Ghana National Petroleum Corporation (GNPC) Foundation as part of its corporate social responsibility initiative. The scholarships were presented to the recipients during a brief ceremony held in the F.O. Kwame Council Chamber on Tuesday, 26th November, 2024. According to Ms. Abigail Boateng from the GNPC Foundation's Sustainability Department, the selection of beneficiaries was based on academic merit. To continue benefiting from the scholarship each year, students are expected to maintain good conduct and excellent academic performance. The scholarship covers tuition, accommodation, and other academic expenses. We commend the GNPC Foundation for their support, and we wish to encourage the beneficiaries to put forth their best efforts to sustain their academic performance.

- **Participation in WorldSkills Training Programme in Germany**

Ms. Salifu Anyugbire Sherifatu, a Level 300 BTech Hospitality Management student of Ho Technical University, participated in a WorldSkills training programme in Germany from 15th - 23rd November, 2025. The training programme, which was funded by the WorldSkills Germany and supported by the Commission for Technical and Vocational Education and Training (CTVET), was aimed at enhancing the capacity of participants for upcoming international competitions. We are grateful to WorldSkills Germany and CTVET for their efforts and support.

- **VP. FM Radio Station – 98.1 MHz**

VP. FM, which is the premier campus radio station in the region, serves as an integral part of HTU's educational framework, functioning as a practical laboratory where

students gain hands-on experience in radio production and broadcasting. During the year, the campus radio station offered students unique opportunities to engage and to hone their skills in various aspects of radio broadcasting. This hands-on experience is invaluable, particularly in light of HTU's newly introduced Bachelor of Arts in Communication and Applied Media Technology programme. This initiative exemplifies HTU's commitment to experiential learning, creating an environment where students can bridge the gap between theory and practice.

- **2nd International Students Day**

The 2nd International Students Day was celebrated on 11th June, 2025, in the G. M. Afeti Auditorium. This year's theme was "Mapping Opportunities to Bridge the Internationalization Gap of Higher Education Institutions in Africa: HTU in Perspective." The event aimed to honor international students on campus and promote the University's internationalization activities. As part of the celebration, an International Education Fair was organized to showcase various educational opportunities available to the University community. Prior to the main event, the Vice-Chancellor, along with the Management team, hosted a special luncheon for international students on 10th June, 2025. This gathering provided a platform for open discussions about their experiences, aspirations, and the unique perspectives they bring to our institution. Overall, the event facilitated dialogue, learning, and connections, with the ultimate goal of bridging the internationalization gap, among other objectives.

- **4th Session of Employer-Students Engagement Seminar**

On Wednesday, 25th June 2025, the Directorate of Career Placement and Counseling organized the 4th session of the Employer-Students Engagement Seminar in the G. M. Afeti Auditorium, specifically designed for students of the HTU Business School. The seminar centered around the theme "Jobs and Careers in the Financial Sector," aiming to equip students with valuable insights pertinent to their future career paths. The event featured a distinguished team from Republic Bank (Ghana) PLC, led by their Head of Human Resources, Mr. Tetteh Mamamah. He provided an engaging presentation that illuminated various career opportunities available within the financial sector. He emphasized the importance of relevant skills, professional attitudes, and competencies essential for success in the industry, such as analytical thinking, effective communication, and adaptability.

Also, the Ag. Director of Career Placement and Counseling, Dr. Sedem Amedome, facilitated interactive discussions where students were encouraged to ask questions and seek clarifications on topics related to internships, entry-level positions, and career advancement opportunities. The response to the event was overwhelmingly positive, attracting not only students from the Business School but also a diverse group of students from other faculties, urged by the relevance of the topic and the growing interest in careers within finance. The seminar underscored the university's commitment to bridging the gap between academic training and real-world application, providing students with the tools and insights necessary to navigate their career journeys effectively. It was a testament to the ongoing efforts of the Directorate of Career Placement and Counseling to support students in making informed career choices and building successful futures.

- **New Uniforms for HTU SRC Cadet Regimental Band**

The HTU SRC Cadet Regimental Band has acquired a new set of uniforms along with various related accoutrements. These items were procured by the Student Representative Council (SRC), reflecting their commitment to enhancing the cadet experience and fostering a sense of unity and pride among members of the band. We extend our sincere appreciation to the SRC leadership for their initiative and dedication in securing these new uniforms. Their continuous support plays a crucial role in promoting a positive environment for the cadet, fostering teamwork, and enhancing the overall morale of the band members. The investment in these uniforms not only signifies a commitment to excellence but also serves to motivate our cadets, inspiring them to embody the values of discipline and pride as they represent HTU in various events and competitions. We look forward to seeing our talented cadets excel in their performances, showcasing their skills while proudly donned in their new uniforms.

04

**GOVERNANCE
& INSTITUTIONAL
DEVELOPMENT**

- **Reconstitution of the Governing Council of the University**

The Governing Council of Ho Technical University has been reconstituted following the dissolution of memberships for statutory boards, corporations, commissions, and councils, a process mandated by the Presidential (Transition) Act, 2012 (Act 845), upon the assumption of office by President John Dramani Mahama on 7th January, 2025. The newly constituted HTU Governing Council was inaugurated in Accra, on 14th August, 2025, by the Hon. Minister for Education, Mr. Haruna Iddrisu. The Council is being chaired by Prof. Smile Dzisi, who currently serves as the Deputy Director-General of the Ghana Education Service.

- **Orientation Programme for Members of HTU Governing Council**

An orientation programme for members of the Governing Council was held from 1st–2nd September 2025 at Sogakofe in the Volta Region. Prof. Emmanuel Adow Obeng, a distinguished scholar, researcher, and former Vice-Chancellor of the University of Cape Coast (UCC) served as the main Facilitator for the orientation programme. The programme served as a platform for the new members of Council to familiarize themselves with the University's history, vision, mission, and strategic objectives. It also provided valuable insights into the University's achievements, potential avenues for growth, existing challenges, and key strategies the Governing Council could adopt to support the University's progress and advancement.

- **Human Capital Development**

The academic staff profile of the University has improved significantly over the past few years. In 2019, there were only fourteen (14) Faculty with doctoral qualifications, a figure that has now increased to over ninety (90). Initially, the sole professorial role was held by the Vice-Chancellor. However, the current Faculty now includes one (1) Professor, eleven (11) Associate Professors, fifty-one (51) Senior Lecturers and five (5) Deputy Registrars. The Vice-Chancellor remains committed to ensuring that at least 80% of Faculty hold PhDs by the end of his second term. Further, the University granted study leave and various forms of sponsorship to some Faculty and Staff to pursue further academic qualifications and professional skills enhancement during the review period. This commitment to continuous learning reflects the University's dedication to fostering a knowledgeable and skilled workforce.

- **Promotions and Contract Renewals**

During the period under review, deserving and qualified faculty and staff were promoted in line with the relevant provisions in the HTU Statutes and the Scheme of Service. Faculty who demonstrated exceptional teaching abilities, innovative research, and a commitment to student mentorship were among those recognized in this round of promotions. Also, the University made some strategic Faculty appointments, designed to strengthen our academic team. These appointments were pivotal in bridging gaps in various departments, ensuring that our students receive quality education from knowledgeable and experienced professionals. Furthermore, the University renewed contracts for Faculty and Administrative/Professional classes under the Registry. Overall, these efforts not only recognize individual achievements but also serve to strengthen the University's mission to deliver quality education, foster research initiatives, and support a vibrant academic community.

- **Continuing Professional Development (CPD) of Faculty and Staff**

The University organized a series of capacity building workshops aimed at enhancing the skills and knowledge of Faculty and Staff. A key highlight of these workshops was the Research Capacity Building Seminar that took place on 28th April, 2025, at the STAR C. The seminar focused on a critical theme: **"Bridging the Knowledge Divide: Identifying and Writing Research Gaps, Theoretical Grounding, and Practical Contributions in Academic Research."** This theme aimed to equip participants with the necessary tools to navigate the complexities of academic research effectively. Prof. Moses Acquaaah, a distinguished faculty member from the University of North Carolina at Greensboro, USA, served as Facilitator.

Additionally, a two-day workshop focused on building Artificial Intelligence (AI) capacity was held for the Faculty and Staff of the University from 9th -13th, June, 2025, at the STAR-C. This workshop provided participants with essential skills to enhance their teaching, research, and administrative functions using AI tools. Facilitators from the Vanuatu Trade Commission guided attendees through the basics of AI, and a variety of tools designed to boost productivity in both academic and non-academic settings. Fully sponsored by the Vanuatu Trade Commission, the training programme highlighted the pressing necessity to adopt AI as a transformative element across all fields. The AI workshop is part of a larger cooperation agreement between HTU and the Vanuatu Trade Commission, which aims to promote research, foster innovation, and facilitate digital transformation within Ghana's higher education landscape.

Also, on Wednesday, 14th May, 2025, a Customer Service Workshop for staff working at the Production Units of the University was held in the Seminar Room of the HTU Graduate School. This workshop was organized as part of our ongoing commitment to enhancing efficiency and the delivery of good customer service to our stakeholders. The workshop was facilitated by Dr. Stanley Glate, Ms. Jewel Novixoxo, and Dr. Francis Nutsugah of the Department of Marketing of HTU Business School.

Further, on 2nd May, 2025, a capacity building training workshop was conducted for faculty and staff at the University Library, on the theme "Elevating Service: Customer Care in Academic Libraries". Dr. Amy Asimah, the Librarian at the Regional Maritime University, served as the Facilitator.

Again, a training programme was conducted by the ICT Directorate for newly appointed faculty members on 20th February, 2025, in the Seminar Room of the Graduate School. The primary focus of the training was on the effective use of the HTU Learning Management System (LMS) and the Student Online Information System (SOIS). The overarching aim was to cultivate a more interactive, engaging, and innovative teaching and learning environment in the classroom.

Additionally, on 5th March, 2025, a specialized capacity building training workshop was held specifically for all Hall Administrators and Hall Masters of the University. This workshop was crucial in aiding them to familiarize themselves with the complexities of room allocation and the various related activities managed through the University's Hall Management System. This training was organized by the ICT Directorate, underscoring its commitment to empowering all staff members with the knowledge and tools necessary for effective management within their respective roles.

Furthermore, Mr. Emmanuel Tawiah Aboagye and Mr. Emmanuel Amankwah, both Technical Staff of the Commission for Technical and Vocational Education and Training (CTVET), facilitated a capacity-building workshop focused on the Implementation Standards for Competency-Based Training (CBT) at the tertiary level. This important event took place from Monday, 24th February, 2025, to Tuesday, 25th February, 2025. The workshop was designed specifically for lecturers who had previously undergone specialized training in CBT facilitation, equipping them with the vital knowledge and skills necessary to implement these standards effectively within the institution.

- **Update on Fulbright Specialist Programme (FSP) at HTU**

During the period under review, Ho Technical University achieved a significant milestone by securing its first-ever Fulbright Specialist Project following a successful application and review process. Led by Fulbright Specialist Mr. Phil Agbeko, some capacity-building programmes were held for our faculty and staff. The Fulbright Specialist Programme which is part of the broader Fulbright initiative established in 2001 by the U.S. Department of State's Bureau of Educational and Cultural Affairs (ECA), aims to promote educational exchange and professional development. The Fulbright Specialist Programme (FSP) is poised to create sustainable collaborations and to enhance the university's global reputation. We look forward to the collaborative opportunities that this initiative will bring to our University.

- **2025 Send-Off Programme for Retirees**

On Wednesday, 12th November 2025, the University held a heartfelt send-off programme at the Basement of the G.M. Afeti Auditorium, in honour of nineteen (19) faculty and staff who retired during the academic year. This ceremony was not just a farewell; it celebrated the remarkable legacy these individuals have left behind. Each retiree was honored with a citation that highlighted their significant contributions to the University's growth and development. The programme was presided over by the Vice-Chancellor and supported by the Executive Management, Deans, Directors, Heads of Department, faculty, staff, and the families of the retirees.

Special awards were presented to Prof. Elizabeth Dzigbordi Obinnim, Mr. Moses Kpordzo, Dr. Mathias Kofi Ashiboe-Mensah, and Dr. Paulina Nillie Adzoyi in recognition of their exceptional contributions to the University's growth and progress. As these esteemed individuals embark on the next chapter of their lives, the University extends its heartfelt gratitude for their years of dedicated service and commitment, wishing them all continued success and happiness in their future endeavours.

- **Women's Wellness Break**

The Gender Affairs Office, under the auspices of the Vice-Chancellor, organized a Wellness Break for all female faculty and staff of the University on 13th August, 2025. The event was aimed to encourage healthy living through physical activities, medical screening, health education, interactive sessions and social bonding among both Teaching and Non-Teaching female staff of the University. It provided a platform for open discussions, allowing staff to share experiences, challenges, and strategies for maintaining a healthy work-life balance. This encouraged not only personal growth but also strengthened connections among colleagues. This initiative aimed not only to enhance individual well-being but also to cultivate a supportive community among the Teaching and Non-teaching female staff of the University, reinforcing the importance of mutual support in achieving a balanced and healthy lifestyle.

- **Commemoration of the 2025 International Women's Day**

On Friday, 7th March, 2025, the University commemorated the International Women's Day, on the theme "Beyond Joining the Train: Accelerating Action on Embracing Gender Equitable Leadership." The event which was organized by the Gender Affairs Office under the leadership of Dr. Leticia Effah-Manu, featured Prof. Mrs. Ibok Nsa Oduro from the Kwame Nkrumah University of Science and Technology (KNUST) as the Guest Speaker. Prof. Oduro highlighted the urgent need for accelerated initiatives to achieve gender equality in leadership roles. The proceedings were chaired by Dr. Otilia Adzinyo, Head of the Hospitality and Tourism Department, and attended by Vice-Chancellor Prof. Ben Q. Honyenuga, Management, Faculty, Staff, and Students of the University. Additionally, pupils from the HTU Basic School and selected second-cycle schools participated in the programme, which focused on addressing the challenges faced by women and girls in Ghana while promoting gender equality and women's empowerment. The International Women's Day, now officially included on the University's calendar, is celebrated annually to recognize and honour the social, economic, cultural, and political achievements of our women.

- **National Sanitation Day Clean-Up and Tree Planting Exercise**

The University participated in the National Sanitation Day Clean-Up Exercise, which was held throughout the Ho Municipality on 1st October, 2025. This initiative aimed to bring communities together to promote cleanliness and environmental consciousness. The event saw enthusiastic participation from faculty, staff, and students, all uniting for a common cause. Volunteers cleared overgrown weeds and debris, and also desilted some drains. In addition to the clean-up efforts, trees were planted at strategic locations on the University campus. These trees were thoughtfully chosen to include species known for their resilience and adaptability, contributing not only to the beautification of our surroundings but also to vital ecological benefits. This initiative is more than just a one-time event; it reflects our commitment to sustainability and environmental stewardship. By engaging in these activities, we are helping to achieve national afforestation goals while fostering a culture of sustainability within our university community. Together, we are taking meaningful steps towards a greener and more sustainable future for all.

- **Staff Games on Independence Day**

On 6th March, 2025, the University organized a Staff Games event in celebration of Independence Day, reflecting our ongoing commitment to fostering teamwork, camaraderie, and a sense of community among faculty and staff. The event kicked off with an enthusiastic opening ceremony, where participants were welcomed by the Vice-Chancellor, who emphasized the importance of work-life balance and the role of such gatherings in promoting a united and healthy university community. Participants had the opportunity to choose from a diverse range of sports and activities, including traditional games like tug-of-war, races, soccer, table tennis, as well as team-building challenges designed to promote teamwork. Overall, the Staff Games event was not just an opportunity for fun and relaxation; it was a significant reminder of our shared purpose and collective strength as a university community. By engaging in such events, we continue to strengthen our bonds and enhance our collaborative spirit, vital for creating a thriving academic environment.

- **Establishment of HTU Staff Welfare Scheme**

A staff Welfare Scheme has been duly established in the University following the required consultations, staff durbars and stakeholder engagements. Scheme Executives have been appointed in accordance with the guidelines set forth in the Constitution of the Welfare Scheme. Furthermore, staff for the Scheme Secretariat have been appointed to ensure the smooth implementation of the scheme as envisioned. Management remains grateful to the Governing Council, Executive Management Committee, Staff Unions/Associations on campus, and Convocation for their efforts and support in this regard.

- **End of Year Staff Get-Together and Dinner**

A delightful End of Year Staff Get-Together and Dinner was organized for all faculty and staff of the University on 18th December, 2024. This event aimed to foster camaraderie and strengthen connections among employees across various departments. Attendees were treated to an impressive array of meals, showcasing a diverse selection of cuisines to cater to all tastes. The event served not only as a culinary experience but also as an invaluable opportunity for faculty and staff to engage with Management officers and one another. This informal setting encouraged networking and built a stronger sense of community within the University. Overall, the Staff Get-Together and Dinner was a resounding success, leaving participants feeling appreciated and more connected with their peers and the University's leadership.

- **Christmas Carols Service**

The University ushered in the 2024 festive season with a Christmas Carols Service held on 18th December 2024, in the G.M. Afeti Auditorium. This event drew an enthusiastic crowd comprising faculty, staff, students, and community members. The programme featured a lineup of inspiring musical performances from various university choirs and soloists. From traditional carols to contemporary hymns, the musical segment resonated deeply, invoking feelings of joy and nostalgia. In addition to the musical offerings, the selected scripture readings provided a reflective and meaningful context to the celebrations. Participants took turns sharing passages that highlighted themes of hope, love, and joy, thereby emphasizing the true essence of the Christmas season.

- **Engagement with the Moslem Community on Campus**

Management held a historic meeting with the Muslim community on campus during their Jum'ah prayers on 28th March, 2025. The meeting marked a major boost in the University's efforts to promote unity and diversity among students, faculty and staff. As a gesture of goodwill, Management donated packs of assorted drinks and water to support the Muslim community's fasting during the remaining days of Ramadan. Management also assured the Muslim community of their support, including the provision of a site for the construction of a mosque.

- **Staff Durbar**

Management held a Staff Durbar on Monday, 17th March, 2025, to update faculty and staff on the university-wide staff welfare scheme, as well as other developments within the University. The durbar provided an opportunity for staff to interact with the Vice-Chancellor and Management, seek clarifications, and contribute ideas. It also served as a platform for faculty and staff to voice their concerns, seek clarifications, and share insightful suggestions for the university's growth and progress.

- **Update on HTU Hospital**

The HTU Hospital remains the primary point of contact for a significant portion of the University community and the broader public seeking healthcare services. As of 31st October, 2025, the hospital has recorded a total of 11,546 client visits, demonstrating its vital role in addressing the health needs of the population it serves. On average, the facility accommodates approximately 1,924 clients each month, indicating a consistent demand for medical attention and support. This high volume of

visitors underscores the hospital's importance as a healthcare provider. Furthermore, as part of efforts to enhance the quality of health care services provided at the HTU Hospital, the University is collaborating with Puremed Limited to establish a state-of-the-art Radiology Centre at the HTU Hospital. This Radiology Centre will offer a wide array of diagnostic imaging services, including advanced imaging techniques such as ultrasound examinations and X-rays. The establishment of the Radiology Centre will not only improve access to necessary imaging diagnostics but also ensure faster and more accurate diagnoses.

- **Courtesy Call on the Hon. Volta Regional Minister**

On Monday, 17th February, 2025, the Management team of the University led by the Vice-Chancellor, Prof. Ben Q. Honyenuga paid a courtesy call on the newly appointed Volta Regional Minister, Hon. James Gunu, to extend their heartfelt congratulations on his appointment. The delegation engaged in meaningful discussions with Hon. James Gunu, emphasizing the University's unwavering support for his tenure. During the meeting, Hon. James Gunu expressed his gratitude for the visit and reassured the delegation of his commitment to promoting TVET education in the region. Other members of the HTU delegation include the Pro Vice-Chancellor, Prof. Christopher Mensah; Registrar, Dr. Christopher Amehoe; Director of Finance, Mr. Augustine Kwame Owusu; and the Director of Works and Physical Development, Mr. Nicholas Awagah.

- **Acquisition of Academic Gowns for the University**

The University has successfully acquired customized academic gowns for convocation. This strategic investment by Management, consists of two hundred (200) PhD gowns and three hundred (300) Master's degree gowns. The acquisition of the gowns represents a significant milestone, as it eliminates the ongoing costs associated with hiring academic gowns for graduation ceremonies and other institutional events that require the use of academic gowns. By this investment, Management anticipates considerable cost savings over time, which can be redirected to support other academic programmes and initiatives.

- **New Uniforms and Accountrements for Security Unit**

Management procured new uniforms and related accountrements for the Security Unit during the period under review. The unveiling of the new uniforms, which included sturdy brown boots, took place during a brief ceremony on Monday, 18th August, 2025, at the forecourt of the F. O. Kwami Block. The event also featured the presentation of raincoats, torchlights, and two electronic hand-held body scanners, all aimed at bolstering the effectiveness of the security operations on campus. This latest initiative builds on an earlier effort from 2024, when Management provided branded polo shirts for security staff to wear as part of their designated 'Friday wear.' The introduction of these new uniforms is a strategic move designed to enhance the visibility and operational efficiency of security personnel, ultimately fostering a safer and more secure environment for the entire university community.

05

**SUSTAINABLE
INFRASTRUCTURAL
DEVELOPMENT**

- **Update on the Establishment of Baby Friendly Facility**

Plans are underway for the establishment of a baby-friendly facility on campus. This much-anticipated facility aims to create a nurturing and secure environment where nursing mothers can care for their infants while continuing to fulfil their academic and professional obligations. The facility will be equipped with comfortable spaces for feeding, changing, and settling babies, alongside areas for mothers to study or engage in work-related tasks. The architectural drawings and designs for the facility have undergone thorough review by Management and relevant stakeholders to ensure that it meets the needs of our community effectively. It is anticipated that the project will be completed within the third quarter of the year, 2025, to provide an invaluable resource for nursing mothers on campus.

- **Automatic Weather Station for the University**

The University has received an advanced automatic weather station from Africa Climate AI (AfriClimate AI), marking a significant milestone in our commitment to climate research and sustainability. This generous donation was made possible through the efforts of Ing. Benjamin Wullobayi Dekongmen, a lecturer in the

Department of Agricultural Engineering at HTU, during his participation in the 2025 AfriClimate AI conference in Kigali, Rwanda. The facility is expected to enhance the accuracy of weather forecasts, benefiting both the university community and the surrounding regions. These forecasts will be disseminated through the VP FM radio station and various social media platforms associated with the university. The equipment was officially presented to Management during a brief ceremony on Tuesday, 16th September, 2025.

- **Renovation of the SRC-JCR**

The HTU SRC is undergoing an extensive renovation to enhance the facility's overall appearance and functionality. This project is aimed at creating a more inviting and engaging space for students. The first phase of the renovation works has been successfully completed. Looking ahead, the second phase of the project is scheduled to commence in the first quarter of 2026. This phase will focus on further improvements, including improved furniture arrangements and the addition of modern amenities. The goal is to create a multifunctional area that supports academic pursuits, social interactions, and student events. The renovation project is being financed by the HTU Student Representative Council (SRC).

06

PARTNERSHIPS AND INTERNATIONALIZATION

- **Update on Partnership with KOAMI**

On 25th March, 2025, the Vice-Chancellor, Prof. Ben Honyenuga, and his Management Team hosted a delegation from the Korea Association of Machinery Industry (KOAMI). This meeting was part of efforts to explore potential collaboration opportunities in the renewable energy sector. The delegation was led by Ing. Seth Mahu, the Director for Renewable Energy and Green Transitions at the Ministry of Energy and Green Transition.

- **Update on Partnership with the African Baobab Alliance (ABA)**

Prof. Kenneth Egbadzor represented the University at the 2025 Global Baobab Congress, which took place in Senegal from 4th - 6th February, 2025. Several stakeholders involved in the baobab value chain, including members from various regions such as Africa, Europe, and America, alongside key government officials from Senegal participated in the congress. During the three-day congress, participants engaged in in-depth discussions that focused on the current landscape of the baobab industry. Topics included not only the existing challenges faced by producers but also the immense prospects for growth and sustainability within the sector. A particular emphasis was placed on strategies to enhance the quality of baobab products, ensuring they meet international standards while also benefiting local communities. The collaborative environment fostered valuable exchanges of ideas, innovative solutions, and the establishment of partnerships aimed at promoting the ecological and economic potential of baobab resources.

- **Update on Partnership with the Hamm-Lippstadt University of Applied Sciences in Germany:**

As part of the University's ongoing collaboration with Hamm-Lippstadt University of Applied Sciences in Germany, Mr. Tony Hlofenu, a final-year student in the Department of Mechanical Engineering, had the opportunity to represent our institution at the 2025 Summer School in Germany, dubbed 'The Business of German Engineering.' This programme took place from 3rd -22nd July, 2025, and provided participants with a comprehensive understanding of the intricacies and innovations within the German engineering landscape. This experience not only enhanced Mr. Hlofenu's understanding of international engineering practices but also represented a significant milestone in his academic journey, contributing to his development as a well-rounded engineer prepared to tackle global challenges. His participation underscores the University's commitment to fostering international collaboration and providing students with global learning experiences.

- **Update on Partnership with Ghana Navy**

A Matriculation Ceremony for the 7th cohort of students at the Naval Training Command in Nutekpor took place on 17th September, 2025. This event highlighted the ongoing partnership between HTU and NAVTRAC, with ninety-seven (97) Naval men and women officially enrolling in certificate and diploma programmes in Logistics and Supply, Hospitality Management, and Secretaryship and Management Studies. The new students were admitted into the HTU Business School as well as the Faculty of Applied Sciences and Technology, marking a significant step in their academic and professional journeys. The collaboration between HTU and the Ghana Navy extends far beyond a typical partnership. This alliance is dedicated to equipping our students, as well as the dedicated naval personnel, with the skills and knowledge necessary to navigate and address the complexities of an ever-changing global environment.

- **Update on Partnership with Design and Technology Institute (DTI)**

- Implementation of Phase II of the Transforming Youth TVET Livelihoods Project

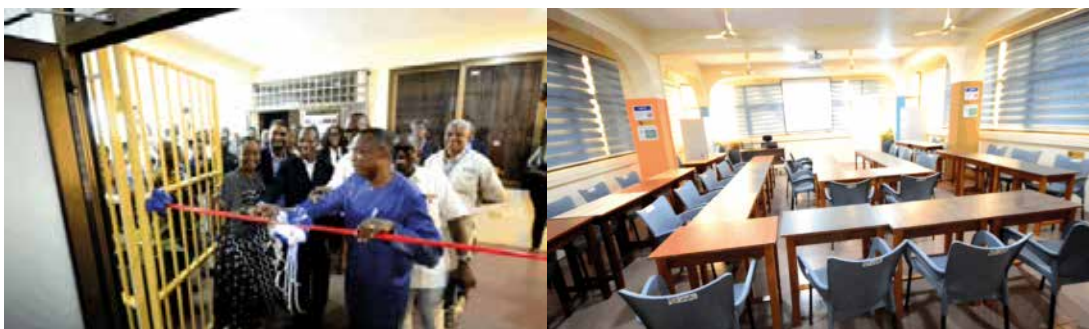

During the review period, the University (HTU) strengthened its collaboration with the Design and Technology Institute (DTI) to promote Technical and Vocational Education and Training (TVET) in the Volta Region. A significant meeting of Management with the leadership of DTI was held on Tuesday, 14th January, 2025, where discussions centered around the initiation of Phase II of the Transforming Youth TVET Livelihoods project. As part of the project implementation, a total of 525 Master Craft Persons (MCPs) and Small and Medium Scale Enterprises (SMEs) were successfully trained in Ho, Akatsi, Sogakofe, Keta, Anloga, and Aflao within the year. These participants have been equipped with essential Precision Quality (PQ) skills and knowledge to enable them compete effectively on the global stage in various trades, including Welding and Fabrication, Auto Mechanics, Fashion and Tailoring, Hospitality, Agro Processing, and Upholstery.

Other key actions planned under this project include, but not limited to the following:

- Retooling laboratories in selected departments.
- Enhancing the Career Development Office with resources to support students in their career paths.
- Training 1,575 master craftsmen and SMEs over three years in areas such as metal fabrication, mechanical engineering, tailoring, hospitality, and food processing.
- Organizing pitching contests to offer seed capital for innovative business ideas.
- Implementing a six-month Precision Internship to help unemployed alumni gain skills for better employment opportunities.
- Providing resources for selected learners to start small businesses, including start-up kits.

- Establishment of PQ Innovation Hub

A Precision Quality (PQ) Innovation Hub has been established at Ho Technical University in collaboration with the Design and Technology Institute (DTI), as part of the MasterCard Young African Work (YAW) initiative. This initiative seeks to position HTU as a key centre for fostering innovation, entrepreneurship, and workforce readiness among students, interns, and informal sector participants. The initiative emphasizes promoting youth entrepreneurship through the Business Incubation Hub Apprentices Model, which specifically supports youth-led enterprises. Additionally, it aims to enhance the skills of master craftsmen and small and medium-sized enterprises (SMEs) to align with industry standards and tackle real-life challenges within their communities. To support this project, some selected departments in the University have been retooled to improve hands-on training opportunities for students.

- Refurbishment of Nkulenu Demonstration Restaurant and the Department of Management Sciences.

As part of our partnership with the Design and Technology Institute and the MasterCard Foundation, the Nkulenu Demonstration Restaurant and the Department of Management Sciences have undergone significant renovations. These enhancements aim to align both facilities with current industry standards and best practices, ensuring they are equipped to meet today's educational and operational demands. Oversight for this transformative project was provided by the Directorate of Works and Physical Development.

- **Update on Partnership with Université de Lomé**

The University welcomed thirteen (13) international students from the English Club of the Université de Lomé in Togo, for an educational tour from 25th -29th March, 2025. The visit aimed to foster cultural exchange and deepen academic collaboration between our institutions. During their stay, the students participated in a variety of activities designed to enhance their understanding of our academic programs and campus life. To further immerse them in our local and institutional culture, the University organized guided tours of significant landmarks in the area, showcasing our history and heritage. Additionally, the students had the opportunity to collaborate on short-term projects with our own students, encouraging dialogue and sharing of diverse perspectives. We look forward to continuing this collaboration and exploring new opportunities for joint initiatives in the future.

- **Update on Partnership with Ho Teaching Hospital**

In line with strategies for the University to engage with the community, the HTU Business School, led by its Dean, Prof. Maxwell Edem Azila-Gbetteor, organized a three-day capacity-building workshop for the secretarial staff of Ho Teaching Hospital (HTH) from 9th -11th September, 2025, in Ho. This capacity-building programme was crucial, given the vital role that administrative staff play within the healthcare ecosystem. While doctors and nurses provide essential medical care, it is the efficiency, coordination, and professionalism of secretarial staff that foster an environment in which clinical teams can excel. The facilitation team from the HTU Business School included Prof. Eli Atatsi, Dr. Stanley Nelvis Glate, Dr. Francis Fonyee Nutsugah, Ms. Juliet Nugble, Ms. Jewel Dela Nuvixoxo, and Mr. Martin Abiemo.

• **Update on Partnership with KNUST**

An HTU delegation from the Directorate of Planning and Quality Assurance (DPQA) participated in a five-day exchange visit to the Quality Assurance and Planning Office (QAPO) of the Kwame Nkrumah University of Science and Technology (KNUST) in Kumasi, from 25th -29th August, 2025. The purpose of this visit was aimed at exploring the mechanisms of quality assurance and management practices at KNUST. The HTU delegation was led by Dr. Edward Kwame Ayimey, the Director of Planning and Quality Assurance, and comprised Ms. Oyebea Nkunu Akyea, Planning Officer; Ing. Francis

Ampiauw, Acting Quality Assurance Officer; and Assistant Planning & Quality Assurance Officers Mrs. Antoinette Tagoe, Mr. Seshie Christian Bonuedi, and Mr. Simon Whoknows Tunu. The team engaged with KNUST representatives, including Mr. Abraham Adusei, the Head of KNUST's Institutional Planning Department, who, along with his staff, hosted the HTU delegation. This exchange visit is anticipated to elevate the capabilities of HTU's DPQA and foster a collaborative relationship between the two institutions.

NEW PARTNERSHIPS

The University signed some new partnership agreements with the underlisted institutions to enhance our collaborative efforts and development.

- Marwadi University, India
- E4Impact Foundation, Ghana
- World Food Programme (WFP), United Nations
- Plan International Ghana
- Forum for African Women Educationalists (FAWE)
- Korea Association of Machinery Industry (KOAMI)
- SEED Consult, Gambia
- Taylor & Francis Group, UK

INTERNATIONAL ENGAGEMENTS

• **Participation in 2025 ATUPA International Conference**

A five-member delegation, led by Vice-Chancellor Prof. Ben Q. Honyenuga, represented the institution at the 2025 ATUPA International Conference, which took place in South Africa from 25th -29th August, 2025. This prestigious conference convened educational leaders and professionals from around the world, providing a platform for the exchange of insights and strategies aimed at refining university policies and practices. The HTU delegation actively participated in a comprehensive range of sessions, networking opportunities, and workshops. These engagements facilitated in-depth discussions on the contemporary trends and challenges that higher education institutions are currently facing.

The delegation's involvement not only highlighted the institution's dedication to enhancing educational practices but also reaffirmed our commitment to promoting international collaboration.

- **Working Visit to The Gambia**

The Vice-Chancellor, Prof. Ben Q. Honyenuga, and the Registrar, Dr. Christopher K. Amehoe, held a meeting with The Gambia's Minister of Higher Education, Research, Science and Technology, Prof. Pierre Gomez, on Monday, 8th September, 2025, to discuss potential collaboration and signing of an MoU which would facilitate Gambian students pursuing higher education at HTU in various TVET fields, including Fashion Design and Textiles, Information and Communication Technology, Hospitality and Tourism Management, among others. The dialogue also delved into faculty exchange programmes, research partnerships, and initiatives aimed at enhancing TVET institutions in The Gambia.

In addition to the meeting with the Minister, the Vice-Chancellor also visited the Gambian Chief Executive Officer of the National Accreditation and Quality Assurance Authority (NAQAA), Dr. Momodou Lamin Tarro, to discuss the establishment of mutual standards and qualification schemes for TVET programmes offered at HTU and similar institutions in The Gambia. This initiative is critical for facilitating student exchanges between TVET institutions in The Gambia and HTU. Prof. Honyenuga was accompanied by the Registrar, Dr. Christopher K. Amehoe, during these significant discussions.

- **Engagements with Gambia Tourism and Hospitality Institute**

The Vice-Chancellor, Prof. Ben Q. Honyenuga, led a delegation on a productive working visit to the Gambia Tourism and Hospitality Institute (GTHI) during his recent trip to Gambia. This visit facilitated meaningful discussions with GTHI's Director General, Mr. Momodou Singhateh, focusing on areas of shared interest and potential collaboration. A key outcome of these discussions was the proposal to develop a Memorandum of Understanding (MoU) that would formalize the partnership between the two institutions. Once established, this MoU will provide a framework for joint initiatives, knowledge exchange, and capacity-building projects, all aimed at enhancing the skills of practitioners within the hospitality and tourism sectors.

- **Participation in the 7th International Solar Alliance (ISA) Africa Regional Committee Meeting**

The Vice-Chancellor and his team participated in the 7th International Solar Alliance (ISA) Africa Regional Committee Meeting, held from 2nd-4th September 2025, at the Labadi Beach Hotel in Accra. This important meeting brought together representatives from the International Solar Alliance (ISA), prospective member countries across Africa, ISA partner organizations, and special invitees. The discussions were focused on actionable strategies to foster partnerships, enhance solar investments, and strengthen institutional capacity to help Africa achieve a sustainable and energy-secure future. Contributing as a panellist on Scaling Institutional Capacity for Solar Growth, under the theme; “Strengthening Institutions for Solar Energy Transitions in Africa”, Prof. Honyenuga highlighted the University’s dedication to advancing solar energy initiatives. He emphasized HTU’s focus on providing practical training to students, ensuring they are prepared for the job market and equipped with entrepreneurial skills. This approach aims to build human capital in the Solar Technology and Application sector.

- **Participation in the 16th Association of African Universities (AAU) Quadrennial General Conference in Morocco**

The Vice-Chancellor, Prof. Ben Q. Honyenuga, along with the Registrar, Dr. Christopher K. Amehoe, represented the University at the 16th Association of African Universities (AAU) Quadrennial General Conference held in Rabat, Morocco, from 21st to 25th July, 2025. The conference centered around the theme “Shaping the Future of Higher Education for Innovation and Sustainable Development in Africa,” aiming to tackle pressing challenges within the sector and explore innovative solutions. This gathering attracted a diverse array of leaders, educators, and researchers from universities across the African continent, fostering a rich environment for sharing knowledge and experiences. Ultimately, the conference served as a crucial platform for advancing higher education initiatives in Africa.

- **Participation in the 2025 Africa Skills Week programme of the African Union Commission in Ethiopia**

The Pro-Vice-Chancellor, Prof. Christopher Mensah represented the University at the 2025 Africa Skills Week programme of the African Union Commission which was held in Addis Ababa, Ethiopia, from 11th -17th October 2025. During the week-long programme, Prof. Mensah actively participated in various sessions focused on enhancing vocational training, skills development, and partnerships between institutions and industries. The event served as a platform for networking, allowing Prof. Mensah to connect with other university representatives and stakeholders committed to addressing Africa's skills gaps. He also explored collaborative opportunities for future projects, emphasizing the role of education in driving economic development and reducing unemployment rates across African nations.

- **Pro-Vice-Chancellor's Official Trip to Israel**

From 9th -13th November, 2025, the Pro-Vice-Chancellor Prof. Christopher Mensah represented the Vice-Chancellor on an official trip to Israel, alongside other selected Vice-Chancellors from leading universities in Ghana, Liberia and Sierra Leone. The itinerary included tours of prominent Israeli universities and cutting-edge research and innovation centers. This visit served as a valuable platform for the

Pro-Vice-Chancellor to forge frameworks for long-term academic collaborations that could enhance educational opportunities at Ho Technical University. We extend our heartfelt gratitude to the Embassy of Israel and the Government of Ghana for facilitating this exceptional opportunity.

- **Participation in the 2025 Capacities4CircularFutures II Programme in Germany**

Ms. Bijou A. Asemsro, an Assistant Lecturer in the Department of Fashion Design and Textiles, participated in the “Capacities4CircularFutures II” programme held in Germany from 1st -7th June, 2025. This training initiative was designed to enhance skills and capacities for sustainable management of textile waste, thereby promoting efficient handling and reinforcing Ghana's commitment to environmental stewardship and circular economy practices. The “Capacities4CircularFutures II” project aims to establish a comprehensive international training framework that provides practical and actionable strategies for implementing circular economy systems. Key focus areas include end-of-life vehicles and used textiles, both of which have shown significant relevance in prior collaborations with Ghanaian stakeholders, particularly during the earlier Capacities4CircularFutures project. The University is grateful to the GIZ and its partners for the support.

- **Participation in Education Collaborative's 2025 June Convening in Kigali, Rwanda**

The Acting Director of Career Placement and Counseling, Dr. Sedem Amedome, and the Director of General Administration and Legal Services, Dr. Edem Honu, represented the University at the Education Collaborative's 2025 Convening, held in Kigali, Rwanda, from 17th-20th June, 2025. This gathering brought together educational leaders and key stakeholders from across Africa to engage in discussions under the theme "Re-centering Student Development: Reflecting, Mobilizing, and Aligning for a Transformational Student Experience." The convening concluded with a collective commitment to transform student development through the creation of career-oriented curricula, the integration of artificial intelligence, and the promotion of Pan-African mobility and inclusivity. The insights gained from the 2025 Education Collaborative Convening highlight a significant transformation occurring within African higher education, signaling a shift towards more progressive and responsive educational practices.

RECOGNITION OF THE VICE-CHANCELLOR'S LEADERSHIP

The Vice-Chancellor continues to be recognized locally and internationally. This recognition is evident through high-level international appointments and engagements outlined below, further enhancing the global reputation of the University.

- **Appointment of Vice-Chancellor as Member of the International Academic Advisory Panel (IAAP) of the Wittenborg University of Applied Sciences in the Netherlands**

The Vice-Chancellor, Prof. Ben Q. Honyenuga, has been appointed as a member of the esteemed International Academic Advisory Panel (IAAP) of Wittenborg University of Applied Sciences, in the Netherlands. This appointment recognizes Prof. Honyenuga's significant contributions to the field of education and his expertise in academic governance. As a member of this advisory board, he plays a vital role in shaping the academic strategies and governance at Wittenborg University, contributing to its mission of providing high-quality applied sciences education. Prof. Honyenuga participated in a key meeting of the IAAP which took place from 19th-24th September 2025, in the Netherlands. This collaboration not only enhances Prof. Honyenuga's professional profile but also strengthens the ties between HTU and Wittenborg University, fostering opportunities for joint projects and international partnerships that can benefit both institutions and their respective student bodies.

- **Appointment of Vice-Chancellor as Member of the Technical Sub-Committee for the 2025 ADEA Triennial in Ghana**

During the review period, the Vice-Chancellor, Prof. Ben Q. Honyenuga, was appointed as a member of the Technical Sub-Committee for the 2025 Association for the Development of Education in Africa (ADEA) Triennale on Education and Training which was held at the Labadi Beach Hotel in Accra from 29th-31st October 2025. This flagship event was held under the theme, "Strengthening the resilience of Africa's educational systems: advancing towards ending learning poverty by 2035 with a well-educated and skilled workforce for the continent and beyond," underscores the urgent need for innovative strategies and collaborative efforts to enhance educational outcomes. His participation in this pivotal event highlights the central role that higher education leaders play in driving systemic change and fostering a thriving future for Africa's youth.

- **Appointment of Vice-Chancellor as Member the Advisory Group of the United Nations Capital Development Fund (UNCDF)**

The Vice-Chancellor, Prof. Ben Q. Honyenuga, has been appointed as a member of the National Advisory Group of the United Nations Capital Development Fund (UNCDF). The UNCDF is implementing the EU-Ghana Pact for Skills: Support Tertiary Education for Sustainable Employability (2024–2028), funded by the European Union and under the leadership of the Ministry of Education (MoE) and the Ghana Tertiary Education Commission (GTEC). The National Advisory Group (NAG) has been established to serve as a strategic platform to address the issue of skills mismatch that significantly impact graduate employability in Ghana and drive innovation, particularly in the green and digital sectors.

07

FINANCIAL SUSTAINABILITY

Ho Technical University is firmly committed to ensuring its financial sustainability through a strategic and thorough approach to resource management to ensure the University's long term survival and growth. During the review period, Management prioritized budget allocations focusing on initiatives that align with the HTU Strategic Plan (2023–2027). This includes investments in modern teaching technologies, infrastructure upgrades, and professional development opportunities that empowered our Faculty and Staff.

By maintaining a strong financial position, we can continue to innovate in our academic offerings and improve campus facilities, ensuring that we effectively serve our community and adapt to evolving educational demands both now and in the future. Our commitment to transparency and accountability in fiscal management further strengthens the trust and confidence of stakeholders, enabling us to fulfill our mission of delivering high-quality education and fostering a culture of excellence. Management is proactively exploring alternative funding sources, including grants, partnerships with industry stakeholders, and alumni contributions to create a resilient financial foundation that supports our educational programmes and infrastructural needs.

INSTITUTIONAL/ INDIVIDUAL AWARDS

- **2025 World University Impact Rankings by Time Higher Education**

The 2025 World University Rankings by Times Higher Education has once again recognized Ho Technical University as one of the top five universities in Ghana. This esteemed recognition underscores our relentless pursuit of academic excellence, research, and our positive influence on both local and global communities. Being

ranked among the nation's elite institutions is a testament to the hard work and dedication of our faculty, students, and staff. It reflects our commitment to delivering high-quality education while fostering a supportive environment that encourages learning and growth.

- **2025 EduRank Rankings**

EduRank's 2025 rankings of the best universities in the world based on their reputation, research performance, and alumni impact, has also ranked HTU as the Best Technical University in Ghana. EduRank.org is an independent metric-based ranking of 14,131 universities from 183 countries. It is worth noting that HTU was also ranked as the Best Technical University in Ghana in the 2024 Rankings.

- **2024 Green Metric World University Rankings**

The 2024 Green Metric World University Rankings has ranked HTU as the No. 1 University in Ghana and the 7th Best University in West Africa. The dedication to green initiatives and its proactive approach to fostering a culture of environmental responsibility played a crucial role in this achievement.

- **Winners of the 7th USAPEEC National Chicken Cooking Competition**

Ho Technical University emerged as the winners of the prestigious USA Poultry and Egg Export Council (USAPEEC) National Chicken Cooking Competition, which took place from 16th -18th June, 2025, in Accra. This three-day event was designed to educate and empower the next generation of culinary professionals in Ghana by highlighting the versatility and quality of American poultry and egg products. The competition began with a two-day hands-on training workshop at the Labadi Beach Hotel, where ninety students from the various Technical Universities across Ghana participated.

Competing against nine other tertiary institutions, HTU showcased its culinary skills, creativity, and excellence, ultimately securing first place. The winning team comprised two outstanding students from the Department of Hospitality and Tourism Management, namely Addo King-Jones and Salifu Anyogbire Sherifatu. It is noteworthy that HTU also claimed victory in this same competition in 2019, reinforcing the University's strong commitment to culinary arts and excellence in our niche area.

- **Winners of Joy Prime Big Chef Tertiary Cooking Competition**

In a remarkable display of culinary skill and teamwork, two (2) outstanding students from the Department of Hospitality and Tourism Management, Salifu Sherifatu and Addo King-Jones, proudly represented Ho Technical University at the second edition of the Joy Prime 'Big Chef' Tertiary Cooking Competition, held in December 2024. Their exceptional performance in this prestigious event not only showcased their individual talents but also highlighted the high standards of training and education provided by the university. As a testament to their hard work, and creativity, both students emerged victorious, securing the top prize in a competition that featured a wide array of talented participants from various institutions. In recognition of their impressive achievements, Management awarded Salifu Sherifatu and Addo King-Jones with bursaries to cover full fees for their respective top-up degree programmes for the 2024/2025 academic year. The provision of these bursaries serves as a powerful motivation for the entire student body, urging them to strive for personal and academic excellence.

- **Participation in the 3rd GHATUSA Games at Cape Coast**

Ho Technical University participated in the 3rd GHATUSA Games, which was hosted by Cape Coast Technical University from Thursday, 4th April, 2025 to Saturday, 12th April, 2025. The University assembled a contingent of eight (8) teams, featuring both male and female athletes. The sports disciplines included Soccer, Basketball, Handball, Tennis, Table Tennis, Volleyball, Badminton, and Athletics. As the games concluded, HTU garnered a total of 10 medals, including 2 gold, 4 silver, and 4 bronze. Consequently, the Academic Board awarded bursaries to the deserving athletes. Additionally, Samuel Kwesi Dagbui, a BTech Building Technology Student who won gold in the triple jump event at both the 3rd GHATUSA Games and the 2nd GHATUSA Games was awarded a one-year full scholarship for his outstanding performance. We wish to commend the HTU Sports Contingent, the Sports Committee, and all Faculty and Staff who played pivotal roles in this endeavour.

- **Participation in the 9th Annual Tertiary Cadet Corps Congress**

Ho Technical University (HTU) proudly hosted and emerged victorious at the 9th Annual Tertiary Cadet Corps Congress, which took place from 20th-22nd June, 2025. The event saw participation from several esteemed institutions, including Takoradi Technical University(TTU), Koforidua Technical University(KTU), the University of Cape Coast(UCC), the University of Education Winneba (UEW), Kwame Nkrumah University of Science and Technology (KNUST), Accra Technical University(ATU), and the University of Mines and Technology (UMAT). A highlight of the congress was the drill competition held on Saturday, 21st June, 2025, at the Jubilee Park in Ho. During this thrilling event, cadet contingents showcased their military drill skills in a highly competitive environment. Ultimately, the HTU SRC Army Cadet Corps earned first place, outshining the University of Cape Coast and Koforidua Technical University, who secured second and third places, respectively.

Additionally, Divine Pentem, HTU's Cadet Commander, received the prestigious title of Best Commander of the competition. It is also noteworthy that the HTU SRC Cadet Team earned 2nd place in the 8th Annual Tertiary Cadet Corps Congress held in Cape Coast in 2024, where Divine Pentem was similarly recognized as Best Commander. This continued success reflects the dedication and skill of HTU's SRC Cadet Corps and their commitment to excellence in military training and leadership.

- **Ms. Linda Sedinam Wins Maiden Corporate Tennis Ladies' Singles**

Ms. Linda Sedinam of Ho Technical University emerged victorious in the inaugural edition of the Corporate Tennis Ladies' Singles tournament held on 22nd October, 2025, in Accra. The tournament, which attracted top female tennis players from various organizations and institutions across the country, showcased a series of thrilling matches that captivated spectators. Ms. Linda

Sedinam demonstrated exceptional skill and determination throughout the competition, ultimately claiming the championship title after a fascinating final match. The event not only highlighted the growing interest in tennis among women in the corporate sector but also fostered networking opportunities among participants. Ms. Sedinam's triumph is a significant milestone in her career and serves as an inspiration to aspiring female athletes in the University. The University is proud to be associated with her.

- **Award at the 2025 ATUPA International Conference in South Africa**

The Vice-Chancellor, Prof. Ben Honyenuga, was conferred with the prestigious ATUPA African Excellence Award at the closing ceremony of the 2025 Annual Conference of the Association of Technical Universities and Polytechnics in Africa (ATUPA), held in Durban, South Africa. The award which is the highest honour bestowed by ATUPA, recognizes individuals who have made exceptional contributions to ATUPA as well as advancing Technical and Vocational Education and Training (TVET) across the continent. Prof. Ben Q. Honyenuga was celebrated for his visionary leadership, strategic advocacy, and unwavering commitment to promoting the African TVET education agenda.

09

DONATIONS

During the review period, the University received some donations as listed below:

- A hormonal analyzer donated to the HTU Hospital by the Medical Experts Organization.
- Eight industrial sewing machines and four industrial irons donated by the Department of Fashion Design and Textiles, led by Dr. Daniel Agbeko.
- A projector donated by the Department of Marketing, led by Dr. Ernest Tsetse.
- Medical consumables donated to the HTU Hospital by GAQHI.
- Two air conditioners donated by faculty members from the Department of Industrial Art.
- A projector, a desktop computer, and a central processing unit (CPU) donated by the Directorate of Career Placement and Counselling under the leadership of Dr. Edem Honu.
- An automatic weather station donated by the AfriClimate AI community, facilitated by Mr. Benjamin W. Dekongmen.
- Three (3) metal-fabricated notice boards by Dr. Kofi Ashiboe –Mensah
- Three (3) CCTV cameras by WOI (Rtd.) Issifu Zakaria.

The University is grateful to all of our donors for their generous support and contributions.

HIGH PROFILE VISITS

- **Visit by the Flag Officer Commanding (FOC) of the Naval Training Command**

The newly appointed Flag Officer Commanding the Naval Training Command (NAVTRAC) at Nutekpor, Commodore James Adongo Agambire, paid a courtesy call on Management on Tuesday, 15th June, 2025, to deepen the collaboration between the two institutions.

- **Visit of U.S. Community College Delegation**

Ho Technical University (HTU) on March 10, 2025 took a bold step toward expanding its international footprint by hosting a distinguished delegation of U.S. community college presidents and faculty members, exploring strategic partnerships to enhance academic exchange and collaboration. The delegation, comprising Dr. Shanna L. Jackson, President of Nashville State Community College, Dr. Larry Anthony Wise Jr., President of Pellissippi State Community College, and Dr. Michael Boyd, Chief of Administrative Services at Southwest Tennessee Community College, was led by Mr. Phil S. Agbeko, Fulbright Specialist and CEO of Hilltop Global Group, a strategic advisory and education consulting firm dedicated to expanding U.S. academic engagement with Africa.

- **Working Visit of ISA Officials**

Officials from the International Solar Alliance (ISA) visited Ho Technical University (HTU) on Friday, 5th September 2025, to assess the newly established Solar Technology Application Resource Centre (STAR-C). The delegation, led by Ing. Seth Mahu, Director of Renewable Energy and Green Transition at the Ministry of Energy, included Dr. Gurleen Kaur, Technology and Solar Specialist, and Dr. Ishan Purohit, Programme Specialist. During the visit, discussions focused on expanding the current collaboration to include staff and student exchange programs with the Indian Institute of Technology (IIT) Delhi. This collaboration aligns with IIT Delhi's role in coordinating foundational solar training programs under the STAR-C framework. Afterward, the team toured the

STAR-C and other campus facilities, interacting with Faculty and Staff to explore the university's technical capabilities in delivering solar training and conducting research. This visit is part of a broader initiative to strengthen Ghana's position in renewable energy development and enhance institutional capacity for solar education across the sub-region.

CONCERNS/ CHALLENGES

- **Stalled GETFund Projects at HTU**

The protracted delays in completing stalled GETFund projects on campus continues to pose significant challenges for Faculty, Staff and Students. Fortunately, following an appeal by Management, the contractors secured the necessary approvals from the Central Tender Review Committee for their revised rates and have returned to the site. It is our hope that this renewed momentum will enable the swift completion of the various projects, allowing us to enhance our campus facilities and better serve our students and faculty.

- **High Cost of Teaching and Learning Materials**

The increasing costs associated with teaching and learning materials, along with vital equipment and software, present considerable challenges for our university. Management is actively seeking support from partners and stakeholders to help mitigate this financial strain. Contributions in the form of funding, resources, or any additional assistance would be immensely valuable. Such support is crucial for ensuring that both faculty and students have access to the essential tools and materials needed to enrich their teaching and learning experiences.

- **Additional Responsibility on the University to pay IGF-related Allowances**

The University is also tasked with the important responsibility of paying IGF-related allowances to eligible faculty and staff. This obligation has become increasingly challenging, especially in light of our current fiscal and economic constraints. Nonetheless, Management is employing a range of strategies to address this issue. The approach encompasses diligent budget management, seeking alternative funding sources, and optimizing operational efficiencies. These measures aim to ensure that the University meets its commitments to Faculty, Staff and Students while effectively navigating the financial landscape.

- **Transport Challenges**

The current fleet of vehicles of the University is primarily comprised of overage and inadequate models, creating significant challenges for officials who must undertake official trips. The frequent breakdowns and maintenance issues associated with these aging vehicles can lead to delays and disruptions in official duties, hampering the University's operations. Furthermore, the lack of sufficient vehicles limits the University's ability to effectively coordinate and participate in important events, conferences, and outreach programmes that are crucial for its growth and reputation. These challenges are worsened by the potential safety risks involved. Addressing these transport challenges is essential for ensuring that the University can operate smoothly and that its Faculty, Staff and Students can travel with peace of mind and the assurance of safety while representing the University.

- **Absence of a Teaching Hotel**

The University is confronted with an urgent requirement to establish a 20-room Teaching Hotel, which will function not only as a practical training facility but also as a Centre of Excellence. We are optimistic that our stakeholders and partners will extend their support to help bring this project to fruition.

CONCLUSION

We extend our heartfelt gratitude to the Governing Council, Academic Board, Executive Management Committee, Deans, Directors, Heads of Department, Faculty, Staff, Alumni, and the Student Representative Council (SRC) for their unwavering commitment and invaluable support. It is imperative that we recognize our collective responsibility to uphold, safeguard, and enhance the integrity and reputation of HTU.

We wish to encourage our graduating students to engage actively with the HTU Alumni Association. This vital connection not only strengthens the bonds of our community but also fosters opportunities for mentorship, collaboration, and networking that can significantly benefit their future endeavours. We also urge our esteemed stakeholders and partners to maintain their invaluable support and contributions, which are vital to the continued growth and progress of the University. Together, we can achieve extraordinary milestones in nurturing the next generation of leaders and innovators.

**3.96
CGPA**

It is with profound gratitude and humility that I stand before you as the valedictorian and overall best graduating student of this remarkable class. Today is not just a ceremony; it is a celebration of growth, perseverance, and purpose, a moment that crowns years of dedication and shared experiences.

My academic journey at this University, through the Department of Hospitality and Tourism Management, has been one of transformation and grace. From the Higher National Diploma to the Bachelor of Technology programme, every stage has assessed my resolve and strengthened my spirit. Graduating with First Class Honours at both levels and now being named the Overall Best Graduating Student is a blessing I hold with deep humility. It reflects not only my commitment to excellence but also the invaluable guidance, faith, and support I have received along the way. As the Overall Best Graduating Student of the Class of 2025, I accept

Valedictory Speech

this honour not as a personal victory, but as a symbol of what is possible when determination meets opportunity and faith meets diligence.

My journey in acquiring hospitality skills has revealed that hospitality is far more than a profession; it is a philosophy of empathy, respect, and human connection. Classroom and practical works have imbibed invaluable lessons in us such as the power of service. Interestingly, serving is mistaken to be servitude. This is an erroneous view held by many, who fail to realise that service is the true and purest form of leadership. This academic journey has shown that, true measure of success lies not in self-seeking recognition but in the positive experiences we create for others.

I am deeply grateful to MTN Ghana for sponsoring my education through the MTN Bright Scholarship, during this journey. Your investment in young minds like mine is a reminder that when institutions and individuals come together, great futures are built. Your support eased my academic path and inspired me to strive for excellence that uplifts others.

This journey would not have been possible without the people who made it meaningful.

To the Management of the University, we appreciate your support and guidance that have sustained our pursuit of excellence during or stay on campus. To our lecturers and mentors, thank you for your wisdom, patience, and tireless dedication. You have shaped not just our intellect, but our values that will help us navigate the paths of life. And to my beloved parents and family, words can never fully capture my gratitude. Your love, prayers, and sacrifices are the pillars upon which my achievements were built. This success is as much yours as it is mine.

To my wonderful classmates and friends, thank you for the teamwork, the laughter, and the countless shared moments that made our time here unforgettable.

Now, as we stand on the threshold of a new chapter, the world before us continues to evolve. The world is constantly and rapidly changing. This means that, we must endeavour to keep abreast with the numerous innovations to remain relevant in our respective chosen fields. We also need to have sustainability plans and a

global diversity outlook. Let us be constantly reminded that success is not achieved in isolation; it is built through community, courage, and compassion. Hence, I urge all to maintain genuine connections with people for a healthy and fruitful networking.

It is crucial to remember that as graduates of the greatest Technical University, Ho Technical University, we carry with us not only technical knowledge but also the heart and spirit of service. May we go forth as ambassadors of excellence, embodying the values of Ho Technical University- innovation, integrity, and impact. Let us continue to serve with skill and passion.

Congratulations, Class of 2025. Our journey has only just begun.

HTU, adanu nazu kekeli.

Thank you.

A person is shown from the chest up, leaning over a table and working on a small, complex robotic car. The person is wearing a light-colored t-shirt and a smartwatch on their left wrist. They are using their hands to adjust or connect components on the robot. The robot has a white base, black wheels, and various electronic components and wires attached. The background is blurred, suggesting a workshop or lab setting. The entire image has a blue color overlay.

MESSAGE TO ALL GRADUANDS

ALUMNI RELATIONS OFFICE

Dear Graduand of Ho Technical University,

Congratulations to you on your graduation from Ho Technical University!

We extend our warmest congratulations to you on this momentous occasion of your graduation from Ho Technical University. Your hard work, dedication, and commitment to your education have brought you to this significant milestone in your life. We are incredibly proud of your achievements and the journey you have undertaken to reach this point.

As you embark on the next chapter of your life, we want to invite you to join the Ho Technical University Alumni Association. The Association is a vibrant community of accomplished individuals who share a common bond – our beloved alma mater. The Alumni Association serves as a platform for you to connect, engage, and give back to your university while reaping the numerous benefits of being part of this community.

About the HTU Alumni Association:

The Ho Technical University Alumni Association is a well-organized network that encompasses several levels of leadership and participation. This network is structured as follows:

- **National Level:**

The National President, along with other National Executive Officers, forms the National Executive Committee (NEC). They provide strategic direction and leadership to the entire association.

- **Chapter Levels:**

Each chapter is led by a Chairperson and is supported by four other Chapter Executive Officers. Current chapters include the HOTEPOOSA (Tema/Accra), HTU Campus Chapter, UHAS Campus Chapter, Ho City Chapter, Dambai City Chapter, Jasikan City Chapter, Nkwanta City Chapter, Akosombo City Chapter, Hohoe Chapter and more in the making.

- **Groups:**

At the grassroots level, groups are formed, each led by a Chairperson. These groups facilitate local engagement and interaction among alumni members.

By becoming a part of the HTU Alumni Association, you will have the opportunity to:

- i. **Network:** Connect with a diverse group of professionals who have graduated from HTU and are making significant contributions in various fields. These connections can open doors to new opportunities, both personally and professionally.

- ii. **Mentorship:** Share your experiences and insights with current HTU students, helping them navigate their educational journey and prepare for the challenges of the real world.
- iii. **Continued Learning:** Stay updated on the latest developments and research at HTU, ensuring that you remain connected to your academic roots.
- iv. **Give Back:** Contribute to the growth and development of your alma mater by participating in initiatives, scholarships, and activities that support the university and its students.
- v. **Stay Informed:** Receive regular updates about alumni events, news, and opportunities to get involved with your fellow graduates.

In addition to these advantages, membership in the HTU Alumni Association allows you to be a part of a supportive and nurturing community that takes pride in your achievements and is eager to help you achieve even greater success in the future.

We encourage you to take this moment to join the HTU Alumni Association and be an active member of this dynamic network. As you move forward, remember that your alma mater is a source of inspiration, guidance, and unwavering support. By joining the association, you contribute to the legacy of our great institution and play a vital role in shaping the future of Ho Technical University.

To become a member, kindly visit our Webpage on the HTU Website or follow the HTU Alumni Relations Office on Facebook for more updates and directions on the registration process. We look forward to welcoming you into our community and to a future filled with the boundless opportunities that being an HTU alumnus has to offer.

Once again, congratulations on your graduation! We wish you all the success and happiness that the world has to offer. As you celebrate this achievement, remember that the HTU Alumni Association is here to walk alongside with you in your journey to greatness.

For inquiries or assistance in joining, please contact our Alumni Relations Office through the university on 030 290 5009, 050 140 4994 or 020 882 4092.

We wish you a fruitful life as your journey begins!

HTU ANTHEM

HAIL HO TECHNICAL UNIVERSITY

//Ho Technical University, we adore you,
We salute you, we hail your name. // You have
opened unto us, the Gate of Knowledge, To develop our Skills
to perfection.
We resolve to become the Hub of Technological Education,
/In Ghana, Africa and beyond./in thick or thin, in rain or shine,
we shall strive to uplift Thy name. //
//All hail, Ho Technical University, all hail, all hail our Alma
mater,
All hail the Star and Primus Inter pares of all-time, God bless
Thee.//
//Ho Technical University, together we stand,
We trust in Thee, you'll never fail us :/
You have championed our course, the Star of progress
To keep burning our torch for human kind.
We shall use our hearts and hands for academical develop-
ment
Forever and ever, God be our help./
In joy or grief, by day or night, we resolve to uphold Thy
name//.
//Arise, Ho Technical University, arise, arise our Alma mater,
Arise the Star and Primus Inter pares of all-time,
God bless Thee: /
